ALUMNI ANNUAL REPORT 2011-12

"....Here I stand at this place and my mind inevitably goes back to that infamous institution for which this place became famous, not now but twenty or thirty years ago - the Hijli Detention Camp. Here in the place of that Hijli Detention Camp stands this fine monument of India (IIT) today representing India's urges, India's future in the making."

21.4.1956 ***Jawaharlal Nehru***

Dear Alumnus,

Greetings to you from IIT Kharagpur!

It is a great privilege for me to communicate with you as the Chairman of the Board of Governors of IIT Kharagpur. I take this opportunity to congratulate the alumni for being a part of this great institution and "the mother of all IIT".

IIT Kharagpur was envisioned to lead India in technology education and research on the lines of the world's best technology institutes. Today there is a need to renew our focus on research and innovation. As part of the Vision 2020 exercise, we envision IIT Kharagpur to be a global top 20 technology institution in the next 20 years. This would be possible only if we sharpen our focus on research and innovation and a strong enabling environment with world-class infrastructure to attract an international pool of faculty and students.

I also see a very strong need to drive interdisciplinary collaboration with a focus on addressing the national and local challenges. Integration of Medical and Engineering Education & Research has benefitted both Medical and Engineering practice and profession and I do hope that the proposed Dr. B C Roy Institute of Medical Science & Research at IIT Kharagpur which has been approved by Government of India will be an important step forward in this direction. This is long overdue in India and is important to the strategic roadmap of IIT Kharagpur to lead this first-of-its-kind collaboration in India.

I do envisage alumni playing a proactive role in successful implementation of the Vision 2020 exercise including facilitating "industry and academia linkages" both locally and globally, "mentoring students & faculty", "participating actively in the development of the Institute" to name a few. The Institutional Development program is another key step in this direction and I hope you will actively participate and contribute towards developing sustainable fund raising program,building the IIT Kharagpur brand etc.

IIT Kharagpur has given the world some of the finest academicians, scientists, researchers, technocrats and entrepreneurs. Let us all join hands and catapult this great institution to a truly global research-focused innovation-led technology institution.

Dr. Shiv Nadar
Chairman, Board of Governors
IIT Kharagpur

Dear Alumnus,

It is time for our Annual Convocation and Foundation Day celebrations. I take this opportunity to greet you on behalf of your Alma mater.

The Diamond Jubilee year has passed by with grand events scheduled all round the year. The faculty, students and alumni, contributing to their best to make this year memorable for a very long time. Also, these KGPians have made us proud by winning many awards and contests, honors and fellowships. Many have been promoted to prestigious positions while some have other breath-taking achievements. I congratulate all for making us proud of each one of you.

The alumni have been a great source of support for us over the years and we could see your enthusiasm increasing. I encourage you to keep up this spirit of giving back to your Alma mater. The Institutional Development (ID) Program is running successfully to help you in this regard. Please read the report on the same for more information and how you can contribute.

I appeal to each one of you to be one with us in our Vision 2020 and mission to success.

Yours sincerely,

Prof. D. Acharya
Director
IIT Kharagpur

Dear Alumnus,

What a pleasure to write to you in this 2nd edition of the Alumni Annual Report with the pilot edition being appreciated widely.

With our reputation steadily strengthening across the globe this has been a year of growth and restructuring. We have taken several new initiatives like Bhaumik International Center for Advanced Research, upgrading of the School of Water Resources, and taking the P. K. Sinha Center for Bio Energy to greater heights. On the financial front we can count Arjun Malhotra's donation of 1 million USD towards completion of his Golden Jubilee pledge, Vinod Gupta's pledge to contribute for the International Center for Visiting Faculty, and gifting of a Chair position to the Architecture Department by Ranbir and Chitra Gupta.

Quite a lot to say, and quite more to be done. I take this opportunity to explain you a bit more about the Founding Endowment concept. KGP is building its endowment and our initial target is Rupees 100 Crores. We know that it cannot be met by one person alone. So we would like to distribute the target to 100 Founding Endowers, each donating or raising a Crore each on an average. To make it even simpler, each Founding Endower can be a group, like your batch. Each batch contributing Rupees 50 Lakhs or more will be recognized as a Founding Endowment Batch. The individual donors will also be recognized. Already 1962 batch has made a pledge and taken the lead to become the first Founding Endowment Batch. 1981, 1984 and 1991 are already in the game and many others are following suit. The race is on. The 2012 batch is also not far behind. Many students from this passing out batch have contributed their caution money while another 400+ students have pledged percentage of their CTC in the coming year.

With the senoirs and the junior most alumni we encourage every batch to choose their leaders and render towards this novel initiative. We have taken this approach following major universities across the world to increase our sustainable fundraising and enhance world ranking. If your batch has not yet started, please get your batch mates contribute towards this endowment fund which is going to commemorate your batch for years' to come. You can take the initiative.

We, the ID team, at the Office of Alumni affairs & International Relations are here to help you at every step and help you stay connected with your Alma Mater. Please register at the alumni web portal and avail the e-newsletter KGP Connection along with the multifarious benefits of the portal.

We look forward to a strong support from you. If you have any ideas on how we can engage with you, please feel free to contact me at *deanaa@hijli.iitkgp.ernet.in*

Let us Innovate (I), Involve (I) and Transform (T) - KGP. Together we can.

Yours sincerely,

Prof. Amit Patra
Dean, Alumni Affairs & International Relations
IIT Kharagpur

Institutional Development (ID) Program

Report from Managing Director Chinna Boddipalli for FY 2011-12 (Apr 1, 2011 to Mar 31, 2012)

This report's object is to capture the full spectrum of ID initiatives and provide an overview of expected outcomes as well as projected timelines and resource requirements. All of the activities and initiatives were within the frame-work of our mission and vision statements which are recapped below. At this point it is important to reiterate that ID program is a supporting function (no decision making) for transformation of the Institute.

Mission:

To support Institute's effort to strengthen domestic ranking as well as enhancing the KGP's international stature.

Vision:

- Provide support for all-round growth plans of the Institute
- Implement a Sustainable and scalable resource development program
- Leverage the alumni and corporate relations for the growth of the Institute
- Promote the KGP Brand

Advisory Board

Mr. R. Gopalkrishnan (ECE/1967)
Mr. Arjun Malhotra (EC/1970)
Dr. Prabhakant Sinha (ME/1970)
Mr. B.K. Syngal (EC/1962)
Mr. Matt Ter Molen, Associate Dean, Kellogg School of Management and Associate Vice President for Alumni Relations and Development for the Northwestern University.

Initial Focused Areas

- Alum Connectivity
- Sustainable Fund-raising
- R&D Camapign
- KGP Brand Building
- Faculty and Students Recruitment

Report:

Alum Connectivity

Portal Launch - The Beta version alumni web portal www.iitkgp.org was launched in January 2011. This portal is an informative as well as interactive platform for the alumni and students. It hosts news and events, communities, job portal, e-shopping, giving back campaigns, discussion forum etc. The initial design and development work was done by an incubated company at Science and Technology Entrepreneur's park (STEP), IIT Kharagpur.

New Initiatives: It was recognized that the existing portal is of static design. Further developments are being made to make it functional for all our 'Campaigns' and professionalization.

- The communities section has facilities of interacting with members through forums and posts and also uploading of photos, running campaigns. There will be a drive to popularize this section so as to bring the alumni and students networking on social media platforms to this portal.
- There are plans to popularize the job portal as well by posting job and internship opportunities by companies engaged with training and placement section.

- Events networking could also be done through the portal, online registration and payment and recording other event details.
- The online shopping cart helps alumni across the world IIT-KGP branded souvenirs.

KGP Connection - This is a fortnightly e-newsletter providing a platform to news and information related IIT-KGP students, alumni and faculty. The monthly registrations at the web portal www.iitkgp.org increases substantially as and when the newsletter is mailed out.

Database - A database of 48000+ alumni is available with the Institute. Out of this, contact details for about 16000 alumni are available in email, phone or postal format. Efforts are being made to collect more data through direct contact, mass mailing, social media, events, etc. Departments are also being encouraged to collect data while an alumnus visits. IIT Foundation-USA has also been approached for sharing of their database.

New Initiatives for the FY 2012-2013 :

- Target is to reach out to 25000 alumni - we need efforts from our alumni to help us get connected
- Also the database is being segregated batch wise, department wise, degree wise and location wise. This would help identify target groups conveniently. Recruiting more student volunteers, making contacts with department heads and hall presidents as nodal points for data collection which is not impossible, but challenging!

CRM - CRM is considered to be the most important tool for efficient fundraising system. CRM is a widely implemented strategy for managing ID program interactions with Alumni, Corporations and well-wishers. It involves using technology to organize, automate, and synchronize fundraising processes-principally campaign activities, but also those for awareness creating, solicitation, acknowledging, recognizing, reporting and stewerdship. Our overall goals are to find, attract, and win new donors, nurture and retain those who already donated, entice former donors back into the fold, and reduce the cost and time of campaigning and servicing.

Annual Alumni Meet and other Re-unions - Annual Alumni Meet is organized every year on the 1st weekend of the month of January. Herein multiple batches are invited. This is to help increase networking and motivate fund raising. Also there are Chapter meets and Batch re-unions in different cities.

New Initiatives for the FY 2012-2013 : There is a plan to organize multiple batch re-unions at Bangalore and Delhi chapters for younger alumni. This will help both South and North India to participate and network.

Souvenir Merchandise shop - The shop, located in the new Gymkhana building, was inaugurated in January 2012. It will sell IIT-KGP branded souvenirs at the Gymkhana. The trade-mark for IIT-KGP logo is in process. The Institute is trying to curtail unauthorized use of IIT-KGP brand name and logo. Request for proposal has already been prepared.

Mentoring - Students' Alumni Cell has launched mentorship program which helps students interact with alumni and get assistance on educational front.

New Initiatives for the FY 2012-2013 : Increasing the number of alumni involvement from current number of 100+.

Sustainable Fundraising

Fundraising Campaigns: These can be achieved through alumni focus, corporate programs and major donor programs by instituting effective communications structures like stewardship ecosystem and database development. The approach is to identify key development needs of KGP and methods thereof to meet the funding needs within a targeted timeframe. This can be affected through endowment funds or specific giving.

New Initiative: Even though the target amount is a long-term project, year by year objectives were identified for the implementation.

- To complete a minimum of 20 batches for batch endowment, each batch pledging/donating at least Rs. 50 lakhs. Some batch leaders already identified. The batch to raise the first Rs. 50 lakhs will be felicitated as Founding Donor Batch for IIT-KGP Endowment. (Please refer to batch endowment section for more details.)
- Convert existing pledges to actions and get new major donor pledges
- Have successful My Imprint campaign by signing up above 500 from the Class of 2012 (as opposed to last year of 27 sign-ups)
- Establish campaign infrastructure by recruiting and training capable people

- Expand student volunteers as well as part time support people

Fundraising Initiatives:

Several campaigns have been formularized for raising funds in sustainable manner. The recent ones are Batch Endowment and My Imprint.

Batch Endowment - Each batch is assigned a target of Rs. 50 lakhs to achieve the honor of Founding Donor Batch for IIT-KGP Endowment.

My Imprint - This initiative is for those who would like to contribute a portion of their annual income for IIT-KGP endowment.

KGP Brand Building

Internal Communication - To develop a strong channel for internal communication, meetings with Heads of different departments are being organized. They are being requested to allot one faculty and one student co-ordinator for alumni networking, data collection. Also Technology Guest House can play an important role in this regard wherein the alumni co-coordinator can connect the visiting alumni to the ID team.

International Branding - Centers of Excellence, regular outreach programs and foreign varsity linkages would strengthen the brand building procedure. Intensive thought leadership and implementation of above programs are needed for global brand building. ID team has laid out a plan for a professional brand building roadmap while working on instituting foundational base programs mentioned above.

Public Relations - Another important aspect of branding is PR activities in India. With reference to this and above a PR committee has been set up consisting of senior alumni and members of the ID team. A students' PR team could also be constituted to facilitate both internal and external communication.

Recruitment and Retaining

Faculty recruitment and Retaining:

The focus will be on attracting international faculty through faculty outreach program and encouraging experienced alumni to join faculty.

To get top placements for students, HR outreach programs, placement interviews in major cities as well as promotional events for enhancing alumni by using R&D programs and industrial consulting.

Senior alumni and international academicians could be motivated to join as Adjunct Faculty. This would require clear processes and procedures explained duly to the alumni in advance so as to create their interest. Proper accommodation for adjunct faculty needs to be developed. Departments should have a more professional approach in utilizing the full potential of the faculty in academics and research

For Students:

- To attract best students, events could be organized with the help of alumni outside KGP promoting KGP days at top schools, coaching centers and connections could be organized.
- Student Exchange Programs with foreign universities can also be a critical motivating factor.
- Incoming students could also be provided certain facilities in the form of package programs.

The ID program has undertaken several other initiatives like conducting survey among students for ranking various aspects of the Institute. Also it has helped in conducting surveys among alumni, students and faculty for KPMG which is the consulting firm for Vision 2020. Sharing similar motto of Vision 2020, ID program is aiming to support activities for the developmental activities in various spheres regarding the Institute. Quite a few activities have been executed and more are in pipeline for the coming year.

Prof. D. Acharya, Prof. Amit Patra, Dr. Mani Bhaumik and Chinna Boddipalli at the Review Meeting at Los Angeles of the Proposed Bhaumik International Research Centre, Kolkata dated October 4, 2011.

Message from General Secretaries, Students' Alumni Cell

Dear All,

This year has been great for the Students' Alumni Cell which gained phenomenal success in each of its activities and initiatives; the Annual Alumni Meet, Alumni Publications, Alumni Guest Lectures, Student-Alumni Mentorship program and the My Imprint program to name a few.

The Students' Alumni Cell is a group of students assisting the Office of Alumni Affairs and International Relations of IIT Kharagpur in working towards maintaining and nurturing relations between the institute and its global alumni community. Our alumni community has always been an integral part of the institute and has rendered its invaluable support in giving back to its alma mater in the best way possible. With the launch of Vision 2020, we earnestly appeal to our alumni to step forward and help in whatever way they can for fulfilling this mission of IIT Kharagpur.

The alumni have always been a great inspiration and a guiding force for the whole student community of IIT Kharagpur. Particularly, the Student-Alumni Mentorship program and the Alumni Guest Lectures organized by Students' Alumni Cell have proved to be a great help in this regard. We as the outgoing General Secretaries, would like to request the alumni to continue patronizing us with their guidance and support in the future also, as they have done over the past few years.

As we complete our tenure, we would like to thank Prof. Amit Patra, Dean AA&IR, and all other people working at the Office of Alumni Affairs and International Relations who have been instrumental in guiding us through the past year in all our activities and initiatives. I would also like to wish the new General Secretaries and the incoming team all the success for the year ahead.

Regards,
Akshat Prakash Verma, Nikunj Mall

Major Contributions - Financial Year 2011-12

Rajendra Mishra School of Engineering Entrepreneurship

As a premier Engineering Institution in the country, IIT-KGP has launched the School of Engineering Entrepreneurship in the name of late Prof. Rajendra Mishra.

This school offers an integrated B. Tech (in the chosen field of engineering) and MS in entrepreneurship, leading to a 5 years of experiential entrepreneurship, culminating in the creation of an enterprise out of the IIT's knowledge portfolios and students' drive.

Amarendra Mishra and Devendra Mishra, sons of late Prof. Rajendra Mishra and alumni have contributed significantly towards this school.

Other contributors for this school are Shyam Bagrodia, Swapan Kumar Hazra, Bhratendu Dev and Deepak Luthra

Rajendra Mishra School of Engineering Entrepreneurship Building Under Construction

Tilak Sarkar for RP Gokarn Award

Prof. Gokarn (Ex-Professor of Naval Architecture and Ex-Dean of post graduates studies IIT Khargpur) is a world renowned authority on Naval Achitecture and propeller design with over forty years teaching experience.

The primary recipient of this Grant is the Department of Ocean Engineering and Naval Architecture, represented and administered by the Dean, Alumni Affairs, Indian Institute of Technology Kharagpur. It is intended mainly to undertake and develop innovative multi-disciplinary research or experimental projects with special emphasis on Marine Design and hope to generate research and empirical material for both academic papers for Academic and Conference journals as well as patentable ideas and innovations.

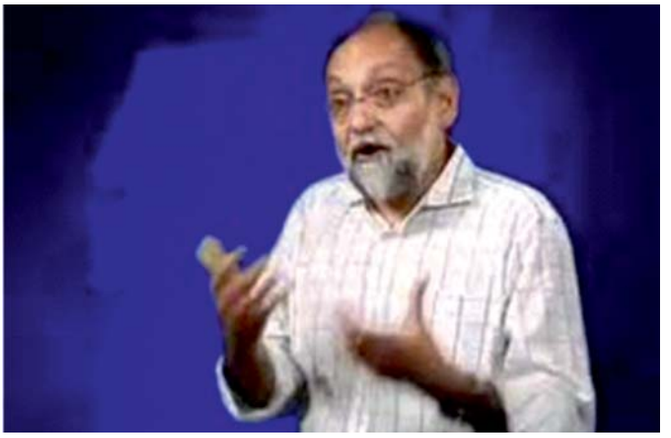

Alumnus Tilak Sarkar has provided ₹ 30,33,104 towards this award.

Your Alma mater thanks you and encourages all alumni to contribute towards their Alma mater.

P.K. Sinha Centre for Bio-energy

Prabha Kant Sinha is Founder and Co-Chairman of ZS Associates. Dr. Sinha was an Associate Professor of Marketing at the Kellogg School of Management until 1987. He continues to teach executives at the Kellogg School of Management and at the India School of Business. He has published over 30 academic articles in journals such as Management Science, Operations Research, Marketing Science and Mathematical Programming. In addition, he has co-authored a series of books on sales force management.

Dr. Sinha is contributing USD 2 million seed funding towards setting up of the multi-disciplinary unit P.K. Sinha Centre for Bio-energy. The centre is doing remarkable work on extraction of ethanol from non-edible lignocellulosic (a plant biomass composed of cellulose, hemi cellulose and lignin). The research will also counter the food fodder-versus-fuel controversy.

Prabha Kant Sinha

Arjun & Kiran Malhotra

Arjun Malhotra

Arjun Malhotra is a doyen of IT industry and his vision and leadership is acknowledged globally in the knowledge industry. He is currently CEO and Chairman of the Board at Headstrong, a premier global consultancy in USA with revenues of over USD 100 million.

After co-founding India's largest computer technology company, HCL Limited (current turnover in excess of $2 billion) in 1976, Arjun went on to launch successful divisions in the sectors of computer-aided design, reprographics, finance and telecommunications.

Arjun is a Gold medallist from IIT Kharagpur. Arjun serves as Chairman of Vision 2020, an alumni initiative to raise a $200 million endowment fund for IIT Kharagpur by the year 2020. He is also one of the founding members of SPIC - MACAY - Society for Promotion of Indian Classical Music and Cultural among Youth

Our illustrious alumnus Arjun Malhotra has been contributing towards his Alma mater on various occasions. On the event of the Diamond Jubilee celebrations of the Institute Arjun contributed towards fulfillment of his Golden Jubilee pledge of 1 million USD.

Your Alma mater thanks you and encourages all alumni to contribute towards their Alma mater.

Udai Agnihotri Chair Professorship by Ron Gupta

Ranbir Singh Gupta is the Chairman of SIGMA7 Design Group Inc. He has been in leadership role for almost 30 years, developing architecture in to a successful business enterprise including projects such as nuclear plants, data centers, and high-tech facilities. Under his patronage the Ranbir and Chitra Gupta School of Infrastructure Design & Management was started in IIT KGP in 2008.

In 2011-2012, Ron Gupta contributed about ₹ 26 lakhs towards Udai Agnihotri Chair Professorship for the Department of Architecture and Regional Planning. Udai and Ron were classmates. Udai passed away in 2011.

Ranbir & Chitra Gupta and family

Vinod & Laura Gupta and family

Pledge by Vinod Gupta

Vinod (Vin) Gupta (AGFE '67) is the Founder and Chairman of InfoUSA, Inc., headquartered in Omaha, Nebraska, USA. Vinod has always been conscious of his Indian roots and generously contributes to his alma mater for making him what he is today. In early '90s he gave $2 million to establish a business school at IIT Kharagpur which is called the Vinod Gupta School of Management, the first business school in the IIT system.

Vinod has pledged for extension of Law Library, Meeting cum distance learning quarters and building living quarters for Adjunct/Visiting International Faculty

Your Alma mater thanks you and encourages all alumni to contribute towards their Alma mater.

Batch Endowment

IIT-KGP announced a special campaign for the IIT-KGP Endowment during the 9th Annual Alumni Meet. With that 1962, 1969 and 1984 batches made commitments towards the cause of overall development of the Institute. Continuing the legacy, other batches have also committed and contributed too. Among them are the batches of 1961, 1962, 1984, 1991 and 2012 (donated caution money). A batch leader is designated for every batch who moves forward the communication and networking. Alumni from several other batches have pledged to contribute as well; among these are 1987, 1990 batches.

The purpose of this Endowment is to support **Vision 2020** - to be-in the top 20 universities among a global peer group of similar technology-focused institutions in the world, in the next 20 years. Seeing this overwhelming response from the alumni towards this goal, IIT-KGP is formally announcing the special campaign for Batch Endowment. This campaign is to promote Batch Endowment for a minimum of Rs. 50 Lakhs per batch. With this the Institute will honor the batch as "Founding Endowment Batch".

In addition to being a founding batch, the initial batches who meet the Rs. 50 Lakhs goal will have a class room designated for the batch with the name of donors displayed in the new Nalanda Academic Complex (refer page 17).

The principal of the fund will remain intact till perpetuity, similar to universities like Harvard. Only the interest will be used for new developments as well as sustain the necessary activities and also strengthen the parent fund against inflation. This will allow for the donation to have an impact over a longer period of time than if it were spent all at once.

Come and join hands together and make a difference to your beloved Alma mater. You will have comfort that your contribution this year will be supporting IIT-KGP for generations to come!

You can donate online for your Batch through the Institute's Alumni web portal http://iitkgp.org/campaigns/41 For more details please write to Mr. Anupam Sarkar at anupam.sarkar@adm.iitkgp.ernet.in

V K Gupta - 1962 Batch

The '62 batch endowment campaign got launched with the illustrious Col. Vinod Gupta (Retd.) making the first contribution towards Endowment for Development. Col. Gupta did B.Tech. in Civil Engineering in 1962. He was a good sportsman especially cricket and athletics.

The '62 Batch Endowment campaign was launched during the 9th Annual Alumni Meet this year, with Anupam Goyal (ME/ RP), President, LeadExcel Inc. taking the lead for the campaign.

Alumni from each batch can contribute to Batch Endowments. Each batch can collect and contribute Rs. 50 lakhs and above to be recognized as Founding Endowment Batch. The '62 batch has committed to be the first one to constitute the Founding Endowment Batch.

Maneesh Bhandari - 1991 Batch

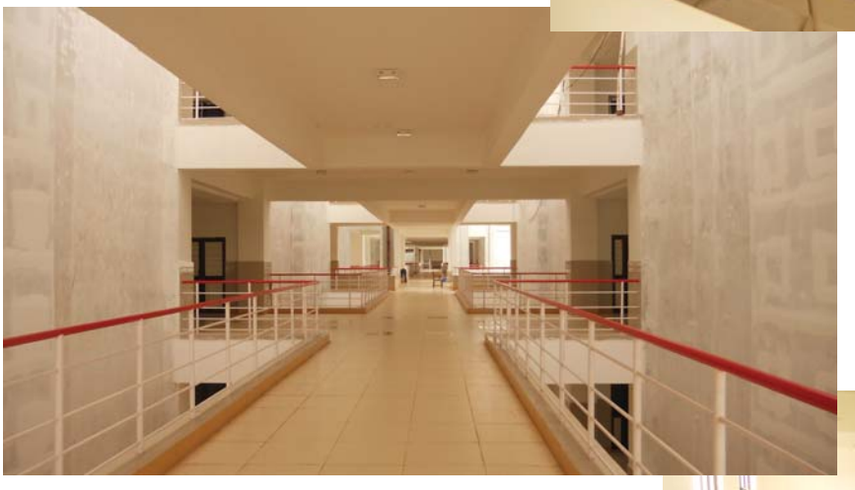

In addition of being the leader for '91 batch Maneesh Bhandari of R K Hall is the champion contributor. Maneesh along with his batch mates is leading the batch endowment campaign.

We encourage other batches to come forward as well and take leadership.

Nalanda Academic Complex

IIT Foundation US donor list is prepared as per data provided by IIT Foundation US

My Imprint

'My Imprint' program reflects the exact KGPian tempo. My Imprint aims to assist the student with their project, studies and research, and living, better at IIT-KGP. Through this program, a passing out student will be able to directly make imprint towards the progress of the revered Institute.

This year witnessed a full -fledged campaigning for the My Imprint program. The Students' Alumni Cell (SAC) has taken this nascent campaign to new heights, resulting in a tenfold increase in the statistics.

With the launch of the program this year there has been a staggering number of over 270 pledges and close to 130 students contributing to the institute by donating their caution money. It is a proud example of how students can make such compelling efforts to show gratitude to the campus. Herein below are the names of the students who have pledged towards the program. The names of the students who have contributed their caution money have been listed under Batch Endowment section.

Caution Money Donors - Class of 2012

Workshop on Fundraising from Alumni and Corporations - A Report

Deans and development officers from top IITs came together for a 2-day workshop held at IIT Kharagpur on February 16-17, 2012. The focus of the workshop was fundraising from corporations and alumni - both philanthropists and whole body of alumni.

With the recommendations from the Kakodkar committee to increase autonomy for the IITs and reduction in the financial support, it is time for the IITs to follow the suit of universities abroad. The Committee report recommends that IITs also raise financial resources from multiple sources, to augment government funding for their development.

Just like American universities, quite a few higher educational institutions were started in India by Indian philanthropists in the pre-British era. While Tatas started Indian Institute of Science Bangalore, Tata Institute of Fundamental Research and Tata Institute of Social Sciences, Banaras Hindu University was started by Madan Mohan Malviya. But gradually with Government taking charge of the higher education system in the country, philanthropy for this sector has dried up. IITs have brought back the culture of giving back with many of their alumni in India and abroad contributing significantly and now the IITs aspire to reach the same scale as those of the American universities.

IIT-KGP Director Prof. Damodar Acharya set the opening tone with emphasis on fundraising through alumni engagement. On the same note Prof. Amit Patra, Dean, Alumni Affairs & International Relations, spoke about the holistic development of the Institute through sustainable fundraising. IIT-KGP was amongst the first IITs in India to receive alumni funding. With this program it again intends to be a pioneer to fulfill the goals of organized fundraising and global branding.

The purpose of the workshop was to develop an organized structure of fundraising from alumni and corporations. Also there was sharing of best practices. The aim was to increase long term fundraising through networking and involvement of alumni and interest of corporations. C J Menard, Associate Vice President, Global Leadership Development, Boston University conducted the workshop. C J Menard focused on systematic alumni giving and setting of clear vision for fund raising campaigns. He focused on importance of branding and emphasis on nation-building as part of fund raising process. Amitabh Banerjee, Director (Finance) of HPCL and Poonam Madan, Managing Partner at Genesis Burson-Marsteller, were the invited speakers. Poonam threw light on CSR in India. Amitabh talked of corporate governance and social responsibility giving by PSUs. Both Poonam and Amitabh commented on how educational institutions can attract CSR funding which is at a nascent stage in India.

Presentations were made by IIT-Kanpur, IIT-Kharagpur, IIT-Bombay and IIT-Madras. Prof. Contractor, Dean of Alumni and Corporate Relations, IIT Bombay reflected the positive and high-growth story in alumni fund raising since the setting up of their development office 4 years back. He emphasized on the process of formulating the strategy and culture of giving while students are still at the campus which they have implemented successfully last year. IIT Kanpur shared its amazing alum-connectivity story and how they accomplished the commendable task of connecting with 75-80% of their alumni which resulted into a regular giving back by the alumni. IIT Madras also talked about how their alumni are giving back every month and the Institute recognizing them in various ways. Dean S P Gupta of IIT Roorkee focused on developing relations with corporations at regular intervals and enhance corporate

fund raising. IIT Delhi talked about proactive and integrated approach towards building alumni relations. IIT Guwahati suggested that offering good placement to students could serve as major branding initiative. It was encouraging to see 3 new IITs participating in this workshop who will be delivering alumni soon. These were IIT Patna, IIT Bhubaneswar and IIT Gandhinagar. Prof. Partha Ray of IIT Patna spoke about why corporate contributions are necessary for corporations to develop future business leaders. Chinna Boddipalli of IIT-KGP talked about how the Institutional Development (ID) program can revolutionize the fundraising structure in the Indian higher educational sector. Chinna is Managing Director of this program which is designed according to the development programs of US universities and customized for the Indian higher education environment. The workshop was an initiative of the ID team. There was also a best ideas' session where every IIT was asked to put forward two ideas on fundraising and branding. IIT-Delhi and IIT-Patna took the top slots followed by KGP and Roorkee at the 2nd and 3rd positions. The idea of social media came up frequently to connect with the alumni worldwide.

Many IITian philanthropists have contributed generously to their Alma mater which took the shape of new developments in each of these IITs receiving such contributions. Several US- based alumni have helped set up schools and centers. At IIT-KGP new developments through major alumni contributions happened since 1990s. Vinod Gupta School of Management and Rajiv Gandhi School of Law by Vinod Gupta, GS Sanyal School of Telecommunication by Arjun Malhotra, School of Infrastructure Design and Management by Ron Gupta, and the very recent School for Bio-energy by Dr. Prabhakant Sinha are the major ones. At IIT Bombay, alumni from across the world have contributed handsomely for their alma mater over the past 15 years. Among some of the major initiatives by the alumni are School of IT by Kanwal Rekhi, School of Management by Shailesh Mehta, D S Foundation Gymkhana by Bharat Desai, Convention Center by Victor Menezes and many more. Similar are the stories for other IITs. While wife of Late Prof. Rajeev Motwani and Narayana Murthy have donated significantly to IIT-Kanpur, IIT-Madras has Dr. Gururaj Deshpande, S Gopalakrishan and others. Bharti Foundation led IIT-Delhi to start the Bharti School of Telecommunication Technology and Management.

The workshop was immensely successful and appreciated by everybody present. Several ideas were put forward on networking, collaborations, branding and world ranking of IITs through organized fund raising. It was also agreed that fundraising cannot be considered in isolation. The growth of an institution would happen when all the stakeholders share a common vision and work towards a common goal as pointed out by C J Menard.

Our Publications - the way we connect

"*Yearnings of Yore*" is an Annual Alumni literary magazine which is distributed as a Meet souvenir to all the alumni attending the meet. This magazine reaches out to the illustrious community of our alumni, keeping them connected to their beloved institute. Articles written by the alumni as a saga to commemorate the times of their lives as well as touch the nostalgic side of other alumni, mention of long lost friends , adventurous ordeals and what not !!

KGPian - The quarterly newsletter KGPian is a connecting platform for all students, alumni and faculty. Here we report Institute developments and activities, alumni and faculty achievements, students' news, Institute and chapter events and a varied range of topics related to the KGPians.

KGP Connection (e-newsletter) - The newly launched fortnightly e-newsletter. The newsletter comprising news about IIT KGP students, alumni sent to over 14000 alumni.

Alumni Annual Report - The publication was launched in 2011 catering to the alumni and bringing to them the achievements under the ID Program umbrella throughout the year.

Yearbook - The Annual Yearbook of IIT Kharagpur, "Kognosco.Gaudeo.Perficio", started off with a publication for the class of 2011 last year, and then for the class of 2012 this year, it created a huge buzz amongst the passing out students. The second edition of the yearbook was launched at the farewell dinner of the 2012 batch, "Alvida". The yearbook contains the profiles and photographs of all the respective passing out students, along with breathtaking photographs of the campus catalogued in month wise order and write ups of all the memorable events of the year.

Mentorship Program

Mentorship Programme is an initiative of Students' Alumni Cell (SAC) under the aegis of Office of Alumni Affairs & International Relations, IIT Kharagpur. The programme was started in academic session 2010-2011. It aims at a healthy interaction between an interested mentor and eager protégé, thus fostering and nurturing Alumni-Student relationship.

Last academic session saw a participation of over 120 mentors with 300 students as mentees, thus making the programme a success. SAC has been instrumental in forging these ties between the students and the mentors ensuring smooth communication between them. We begin again, this academic session, to reach new heights and make this programme a successful endeavor.

Deans and development officers from top IITs came together for Alumni and Corporate Fundraising

Kharagpur (I-Newswire) February 21, 2012 - Deans and development officers from top IITs came together for a 2-day workshop held at IIT Kharagpur on February 16-17, 2012. The focus of the workshop was fundraising from corporations and alumni – both philanthropists and whole body of alumni.
With the recommendations from the Kakodkar committee to increase autonomy for the IITs and reduction in the financial support, it is time for the IITs to follow the suit of universities abroad. The Committee report recommends that IITs also raise financial resources from multiple sources, to augment government funding for their development.

Just like American universities, quite a few higher educational institutions were started in India by Indian philanthropists in the pre-British era. While Tatas started Indian Institute of Science Bangalore, Tata Institute of Fundamental Research and Tata Institute of Social Sciences, Benaras Hindu University was started by Madan Mohan Malviya. But gradually with Government taking charge of the higher education system in the country, philanthropy for this sector has dried up. IITs have brought back the culture of giving back with many of their alumni in India and abroad contributing significantly and now the IITs aspire to reach the same scale as those of the American universities.

IIT-KGP Director Prof. Damodar Acharya set the opening tone with emphasis on fundraising through alumni engagement. On the same note Prof. Amit Patra, Dean, Alumni Affairs & International Relations, spoke about the holistic development of the Institute through sustainable fundraising. IIT-KGP was amongst the first IITs in India to receive alumni funding. With this program it again intends to be a pioneer to fulfill the goals of organized fundraising and global branding.

The purpose of the workshop was to develop an organized structure of fundraising from alumni and corporations. Also there was sharing of best practices. The aim was to increase long term fundraising through networking and involvement of alumni and interest of corporations. C J Menard, Associate Vice President, Global Leadership Development, Boston University conducted the workshop. C J Menard focused on systematic alumni giving and setting of clear vision for fund raising campaigns. He focused on importance of branding and emphasis on nation-building as part of fund raising process. Amitabh Banerjee, Director (Finance) of HPCL and Poonam Madan, Managing Partner at Genesis Burson-Marsteller, were the invited speakers. Poonam threw light on CSR in India. Amitabh talked of corporate governance and social responsibility giving by PSUs. Both Poonam and Amitabh commented on how educational institutions can attract CSR funding which is at a nascent stage in India.

Presentations were made by IIT-Kanpur, IIT-Kharagpur, IIT-Bombay and IIT-Madras. Dean of Alumni and Corporate Relations, IIT Bombay Prof. Contractor reflected the positive and high-growth story in alumni fund raising since the setting up of their development office 4 years' back. He emphasized on the process of formulating the strategy and culture of giving while students are still at the campus which they have implemented successfully last year. IIT Kanpur shared its amazing alum-connectivity story and how they accomplished the commendable task of connecting with 75-80% of their alumni which resulted into a regular giving back by the alumni. IIT Madras also talked about how their alumni are giving back every month and the Institute recognizing them in various ways. Dean S P Gupta of IIT Roorkee focused on developing relations with corporations at regular intervals and enhance corporate fund raising. IIT Del... ...talked about proactive and integrated approach towards building alumni relations. IIT Guwahati suggested tha... ...agement to students could serve as major branding initiative. It was encouraging to see 3 new IITs ... ...who will be delivering alumni soon. DIFFERENT ROUTE

Institutes such as IIT Kharagpur have decided to take a different route. The Rajendra Mishra School of Engineering Entrepreneurship at IIT Kharagpur has the agenda of creating more jobs for young people in which they will promote 30 students to start their own business venture as entrepreneurs.

These students from across departments will give in an additional year post their BTech, where they will be trained and supported to establish their own company. At the end of the year, each will have a registered company and enough seed money provided by the institute to establish their individual startups, says Yatinder Suri, faculty, IIT Kharagpur.

IIT Kharagpur starts research on production of ethanol from non-edible sources

Shiv Sahay Singh

With the debate raging over production of ethanol — a source of bio-fuel — from edible products, Indian Institute of Technology-Kharagpur has started research on its extraction from non-edible agro residues.

Scientists at the Institute's P.K. Sinha Centre for Bio Energy have started work on extraction of ethanol from non-edible *lignocellulosic* (a plant biomass composed of cellulose, hemi cellulose and lignin), scientists of the Institute told *The Hindu* on Tuesday.

Professor Rintu Banerjee, professor in charge of the centre and principal investigator of the project, said they had chosen *Ricinus communis* , a plant that yields castor oil for production of ethanol.

Researchers are using the *lignocellulosic* extracts, which are non- edible. After detoxifying the toxin in the plant, they are converting it into ethanol.

"The research, over a span of three years, will also counter the food fodder-versus-fuel controversy," said Prof. Banerjee. Since parts of the plants are non-edible there is no loss of food or fodder in the process of ethanol preparation.

The other sources scientists are looking at are *Bambusa bamboo* (bush… weed) and *Gossypium herbaceum* (cotton) .

Solving water problems, round the globe

IIT-Kgp Alumnus Plans Model For Alma Mater

Jhimli Mukherjee Pandey | TNN

Kolkata: This alumnus of the Indian Institute of Technology, Kharagpur, is considered to be the most accomplished expert of water resources management in the world.

Asit Biswas

But deep inside, Asit Biswas remains a student of his alma mater and humbly owes his entire success to the institute. Now when it's his turn to give something back, Asit Biswas has come up with a unique proposal.

Biswas studied in the civil engineering department of IIT-Kgp between 1956-61 and took both his B Tech and M Tech degrees from here. Today, he is the president of Third World Centre for Water Management, Mexico, and advises governments of 18 countries on how to solve their water related problems.

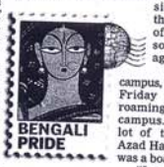

He is back at the IIT-Kgp campus after 50 years to receive the distinguished alumni award. He wishes to create a model that would provide round-the-clock clean drinking water supply to the institute.

"This way, I wish to pay tribute to the institute, absolutely free of cost. The model will be prepared in such a way that it can be replicated on a bigger scale for an entire city. The Union ministry for water resources management, has been in touch with me for water related problems of the country. This model can be of use to the government," Biswas added.

He passed out of the institute in 1961 and immediately got placed as a civil engineer at Ward, Ashcroft and Parkman in Liverpool, England. But Biswas knew that he didn't want to spend his energy in a job, but should get into research, so that he could use his tech degree for a greater cause.

Environment had always intrigued him. But he was still searching for avenues, that would help him utilise his skills for the conservation of natural resources. Soon he enrolled himself as a research fellow at the Loughborough University of Technology, England.

He moved to Canada in 1967 and helped the government there to form a new ministry of environment. He has handled a series of prestigious water resources related assignments for the United Nations and the World Commission on Water. In 2006, he won the Stockholm Water Prize, considered to be the Nobel Prize of water resources management.

BENGALI PRIDE

Back on the campus, Biswas spent Friday morning roaming around the campus. He spent a lot of time at the Azad Hall where he was a boarder.

"I am amazed at the metamorphosis of the entire Kharagpur and the campus in particular. My memories of the campus, my teachers and my batchmates are still fresh in my mind; I am spending time tallying them with the present images. On Saturday I am expecting seven of my batchmates to turn up for the re-union," Biswas added.

THE TELEGRAPH CALCUTTA MONDAY 19 MARCH 2012 NATION XXSE 5

Oxford date with Presidency & IIT

AMIT ROY

London, March 18: Are you a very bright student but come from a very poor family?

Not to worry. Oxford University will let you in and offer you a scholarship to cover your fees and living expenses.

That basically is the deal Oxford University vice-chancellor Professor Andrew Hamilton, a down to earth chemist, is offering as he arrived in India today with a very senior team.

As Jane Sherwood, Oxford's director of graduate admissions and funding who is travelling with the vice-chancellor, put it: "We are not interested in your background."

She will be alongside the vice-chancellor when they pop into Presidency University on March 24 to make a pitch for the best and the brightest.

Hamilton will be travelling to Mumbai and Delhi, spending a couple of days in Calcutta and finding time to deliver his big speech of the trip at IIT Kharagpur to mark the Queen's diamond jubilee.

So **The Telegraph** cut to the chase and asked the vice-chancellor: "Why Calcutta?"

Also, what would he be saying in his keynote address at IIT Kharagpur?

Vice-chancellor Andrew Hamilton, the Oxford University and Jane Sherwood, director of graduate admissions and funding

"I will be talking about the challenges of becoming — and in Oxford's case — remaining a world-class university in the 21st century," Hamilton responded. "Those challenges come in the form of funding pressures, in the form of intense international competition from many different countries and indeed increasingly from universities in India."

"I will be talking about the importance of the balance between research excellence, which is obviously enormously important, but also attention to serious and engaged teaching structures," he said, stressing Oxford was committed to retaining its one-to-one tutorial system.

Hamilton pointed out that "the first recorded English man to arrive in India was a graduate of New College Oxford in 1579-80 so there have been links for a very long time. We have had a strong presence on the ground in India for a century now and we will be celebrating the centenary of Oxford University Press in Delhi."

Prime Minister Manmohan Singh is expected to attend the Oxford University Press celebrations.

"We are looking forward to meeting the Prime Minister and we are hoping to have other meetings with Indian leaders and politicians," the vice-chancellor confirmed.

Along with Kharagpur, "I am looking forward to visiting Calcutta — we are going to visit Presidency University where there will be an alumni reception," Hamilton continued. "In many respects the visit to Calcutta is for us an opportunity to reinforce what we know: that there is much, much more to India than Mumbai and Delhi. And that there are Oxford alumni everywhere and we have a sizeable cohort of Oxford alumni in Calcutta. Major links to our alumni is one of the very important reasons for this trip as well as interacting with Indian students and encouraging them to consider Oxford University for their studies."

Even for Oxford, which has raised "£1,299,512,525 — just under £1.3billion" — since 2004, it needs even more money to go on funding scholarships, such as the ones being offered in ever increasing numbers to students from India.

Hamilton, academic coll… want to pre… tion we have… scientists … India, betw… ical researc… researcher… course, the… between t…

social science researchers which have been strong for a very long time."

The top team with the vice-chancellor will include: Oxford's director of development Liesl Elder, director of international strategy Loren Griffith, deputy director of alumni relations Jane Szele, dean of the Saïd Business School Peter Tufano, professor of linguistics Aditi Lahiri, director of Indox Cancer Research Network Raghib Ali, and the co-directors of the George Centre for Healthcare Innovation Robyn Norton and MacMahon.

Pradeep K Khosla, an IITian, appointed chancellor of University of California

Tags: University of California | Pradeep K Khosla | 40-k | Diego | Cornell University | Carnegie Mellon University

Indian American Pradeep K. Khosla, currently the dean of Carnegie Mellon University's engineering college, has been named as the 8th chancellor of University of California, San Diego by UC president Mark G. Yudof.

This is the second big appointment in US academia for an IIT-ian in the last few months, with Soumitra Dutta, alumnus of IIT-Delhi, having been named as the dean of the Cornell University's Johnson Graduate School of Management recently. Khosla, an alumnus of IIT-Kharagpur, electrical engineering, will be replacing Maryé Anne Fox, who is retiring in August 2012.

IIT-Kharagp… Alumni Mee…

Posted by Shelly S. on Ja…

Kharagpur was organized at the Kharagpur campus… the Institute honoured six of its alumni with Distinguished Service A…

Among the recipients was Jaideep Sarkar (IFS), the Private Secretary to the Prime Minister serving as a key interface with Government and Civil Society. He has been handling portfolios related to Foreign Affairs, Defense & Security, Atomic Energy and Space, Science & Technology, Environment, Health, Local Self-Government and Rural Development. Stainless steel guru and Country Head of Finnish Group Outokumpu, Yatinder Pal Suri also received the award for his support and initiative in reviving the IIT-KGP alumni associations. Another recipient was Pronob Kumar Guha, Managing Director at Gibraltar Airsprings Pvt. Ltd. and Secretary of IIT Foundation India.

Director Prof. Damodar Acharya handed over the awards to all three distinguished alumni. The other three alumni who have been named for the award but could not be present were Dharam Vir, Roy Chowdhury, Dharam Vir is the State Election Commissioner of Haryana. He has co-authored a book on IIT Kharagpur titled 'Sixty Years in the Service of the Nation-An Illustrated History of IIT Kharagpur'. Roy Dasilva is the President of IIT Foundation India.

आईआईटी खड़गपुर ने पूर्व छात्रों को सम्मानित किया

दिल्ली। भारतीय प्रौद्योगिकी संस्थान, खड़गपुर (आईआईटी-के) ने नौवें एलम्नी मीट के तहत अपने 6 पूर्व छात्रों को प्रतिष्ठित सेवा सम्मान से सम्मानित किया। समारोह में फिनलैंड की कंपनी आउटोकुंपू के भारत में प्रमुख और स्टेनलेस स्टील गुरु कहे जाने वाले यतिंदर पाल सूरी भी सम्मानित होने वालों में शामिल हैं। ये आईआईटी खड़गपुर एलुमनी एसोसिएशन, नॉर्थ इंडिया के अध्यक्ष भी हैं। इन्हें आईआईटी खड़गपुर एलुमनी एसोसिएशन को वापस खड़ा करने में उनके सहयोग के लिए भी पुरस्कृत किया गया।

श्री धर्मवीर, हरियाणा के पूर्व मुख्य सचिव रह चुके* हैं और वर्तमान समय में राज्य के चुनाव आयुक्त हैं। ये आईआईटी-खड़गपुर पर लिखी किताब 'सिक्सटी ईयर्स इन द सर्विस ऑफ द नेशन-एन इलेस्ट्रेड हिस्ट्री ऑफ आईआईटी खड़गपुर के सह-लेखक भी हैं। जयदीप सरकार (आईएफएस) प्रधानमंत्री के निजी सचिव के तौर पर सरकार में अहम् भूमिका निभाने के साथ नागरिक समाज की सेवा कर रहे हैं। वे विदेश मामले, रक्षा एवं सुरक्षा, परमाणु ऊर्जा और अंतरिक्ष, विज्ञान एवं प्रौद्योगिकी, पर्यावरण, स्वास्थ्य, स्थानीय स्वयं-शासन और क्षेत्रीय विकास जैसे विभागों से जुड़े मामले देखते रहे हैं।

इसके अतिरिक्त प्रणोब कुमार गुहा, प्रबंध निदेशक, गिब्रेटलर अर्सप्रिंग्स प्राइवेट लिमिटेड और आईआईटी फाउंडेशन इंडिया के सचिव को भी सम्मानित किया गया। इसके अलावा रॉय दासविल्य और श्यामल रॉय चौधरी को भी पुरस्कार मिले। रॉय दासविल्य आईआईटी फाउंडेशन अमेरिका के अध्यक्ष होने के साथ पैन आईआईटी आईएनसी के बोर्ड के सदस्य भी हैं। श्यामल रॉय चौधरी अमेरिका में फोटो पत्रकार और उद्यमी हैं। उन्होंने संस्थान के 6० साल पूरे होने पर 'रिप्रट ऑफ आईआईटी खड़गपुर' किताब प्रकाशित की है।

Khosla has been dean for eight years at CMU where he has set the direction for graduate and undergraduate research. He started curriculum reform, diversity efforts and instituted multidisciplinary and multi-college research centres as well as international programmes. He has also been instrumental in the college's fundraising in a $100 million campaign for a universitywide energy institute and $90 million campaign for a 100,000 square foot College of Engineering building for biotech, energy and nanotechnology.

According to Mark Yudof, University of California President, Khosla will bring to UC San Diego a distinctive set of attributes that will enable the university to build on the excellence that has made it one of the top institutions of higher learning in the world. Talking about Khosla, Mark described him as a time-tested, honored researcher, an innovative educator dedicated to improving the quality of life for students, faculty and staff, and an entrepreneurial leader with a global vision and proven fundraising abilities.

Khosla said in a statement: "I feel fortunate, humbled and energised to have the opportunity to contribute to excellence while embracing the challenges of integrating world-class research with an undergraduate educational experience that will remain accessible to all, regardless of family income."

Alumni of IIT-Kharagpur, Khosla, 55, went to the US for a master's degree and doctorate in electrical computer engineering at Carnegie Mellon in the 1980s.

India.

arya handed over the awards to the three distinguished alumni. The other esent were Dharam Vir, state election commissioner of Haryana and ervice of the Nation-An Illustrated History of IIT Kharagpur'; Roy Dasilva, nd board member of Pan IIT Inc. and Shyamal Roy Chowdhury, a US ur and publisher of a pictorial book 'Spirit of IIT Kharagpur'.

120 alumni from India and abroad and alumni-faculty members of the artner at Mackenzie Ltd.; Manavendra Sinha, president and CEO, IDFC an, managing director, Credit Suisse and Bala Rama Nayar, managing . Several of these alumni also participated in the panel discussion, hancement of brand image of IITs.

were Hasya Kavi Sammelan, Mini Marathon and Illumination, an haragpur students. The book "The Game Changers - 20 extraordinary n IIT Kharagpur", penned by three alumni was released. The three day and photography exhibition by the students.

The alumni widely appreciated Vision 2020 of the institute and committed themselves to contribute towards it. The specially invited batches of 1962 led by Anupam Goyal, president, LeadExcel Inc. and 1987 led by Arghya Das, country manager, Hindustan Petroleum committed Rs 50 lakh from each batch towards founding endowment funds for the institute. Distinguished Service awardee Pronob Guha also made a similar commitment for his batch of 1969 along with YPS Suri of 1975.

Institute Lecture Series

Speaker: Prof. David L Kaplan, Professor and Chair - Department of Biomedical Engineering, Tufts University - USA, Director: NIH Tissue Engg. Resource Centre
Topic: "New Strategies for Tissue Engineering"

Speaker: Prof. Bruce R. Ellingwood, the Raymond Allen Jones Chair in Civil Engg. College of Engineering Distinguished Professor Georgia Institute of Technology, Atlanta, USA
Topic: "Assessment and mitigation of risk from competing low- probability, high- consequence events"

Speaker: Dr. M R Ramsay, First D.Sc of IE&M Department, IIT Kharagpur, Director-International Institute of Productivity Science and Management(IIPSM), D. Litt (UK), D.B.A (USA)
Topic: "Productivity science Quantification"

Speaker: Prof. Rafiqul Islam, Distinguished Scientist & Professor, Dhaka University
Topic: "Energy & Environment Challenges in the 21st Century"

Speaker: Mr. Dharam Vir, IAS (Retd.), State Election Commissioner, Haryana and alumnus of IIT Kharagpur
Topic: "History of IIT Kharagpur - A few unknown Facts"

Speaker: Dr. Samit K. Bhattacharyya, IIT Kharagpur Alumnus and President, RENMAR Enterprise, Inc.
Topic: "Nuclear Technology Development for Applications in Space"

Speaker: Prof. Amitabha Ghosh, Former Director, IIT Kharagpur
Topic: "Aryan Invasion: Myth or Reality - A Discussion Based upon Recent Findings"

Speaker: Prof. Rajiv Malhotra, Founder President, The infinity Foundation, USA
Topic: On the book "Being Different" (Harper Collings, 2011)

Guest Lecture Series organized by Students' Alumni Cell

Students' Alumni Cell (SAC) has been organizing alumni guest lecturers for the past few years. The topic of the guest lecture is decided upon contemplation of the latest trends of career paths as perceived by the students. This is followed by a thorough search for the perfect alumni profile by the members of SAC.

SAC is responsible for contacting the respective alumni, corresponding on behalf of the institute's students and presenting a questionnaire before the event, the publicity and logistics etc. On an average 4 guest lectures are organized in a year. Mr Rajesh Pandey, an IAS Officer, was invited to enlighten our students about "Careers in Civil Services", another successful lecture was given by a 1996 alumni Mr. Anshuman Vatsayan, VP, Deutsche Bank on "Careers in Investment Banking and Finance". Mr. Anupam Goyal, a 1962 alumnus inspired students during the meet with his immaculate views on "Leadership".

Annual Alumni Meet 2012

Event Report

Distinguished Service Award

The 9th Annual Alumni Meet of IIT Kharagpur was organized at the Kharagpur campus between January 6 -8, 2012. On this occasion the Institute honoured six of its alumni with **Distinguished Service Award**. Among the recipients was **Jaideep Sarkar (IFS), Yatinder Pal Suri, Pronob Kumar Guha, Dharam Vir, Roy Dasilva, Shyamal Roy Chowdhury**.

Key Alumni Participants and Panelists

The 9th Annual Alumni Meet was graced with the presence of about 120 alumni from India and abroad and alumni-faculty members of the Institute. Some among them were Barnik Maitra - Partner, Mackenzie Ltd., Manavendra Sinha- President & CEO IDFC Project Equity, Mahesh Swaminathan - MD Credit Suisse, Bala Rama Nayar - MD Morpheus Capital Advisors, and who's who from various other fields. Several of these alumni also participated in the panel discussion organized by the alumni cell on the topic of enhancement of brand image of IITs. The alumni, faculty and students participated in this discussion with full vigour.

Other Events

Other major attractions of the event were Hasya Kavi Sammelan, Mini Marathon and Illumination - an indigenous lighting tradition of IIT Kharagpur students. The book "The Game Changers - 20 extraordinary success stories of entrepreneurs from IIT Kharagpur" penned by three alumni was released on this occasion. The 3-day event closed with fine arts and photography exhibition by the students.

Giving Back - Alumni Pledge

The alumni were not only nostalgic about their Alma mater which had a life-changing impact on them but were excited to see the developments in the campus and in the mindsets. They widely appreciated the Vision 2020 of the Institute and also committed to contribute towards it. The specially invited batches of 1962 led by Anupam Goyal (ME/ RP), President, LeadExcel Inc. and 1987 led by Supriyo Sircar (E&ECE / AZ), President, IIT Alumni Association Singapore and Arghya Das (MI/ AH), Country Manager, Hindustan Petroleum committed INR 50 lacs from each batch towards founding endowment funds for the Institute. Distinguished Service awardee Pronob Guha also made similar commitment for his batch of 1969. YPS Suri of 1975 batch has also committed towards the cause.

IIT-KGP is organizing the **10th** Annual Alumni Meet between 4th-6th January, 2013. All the esteemed alumni of IIT Kharagpur are cordially invited to be a part of the Meet with the passing out batches of 1963 (Golden Jubilee), 1973 (Ruby Jubilee) & 1988 (Silver Jubilee) being our special guests of honour.

Institute Awards

Distinguished Alumnus Awardees - 2011-2012

Captain N.S. Mohan Ram (OENA/1958)

Mr. Debnarayan Bhattacharya (CH/1969/ VS)

Nrupender Rao (ME/1966/ Azad)

Dr. Amit Roy (CH /1970)

Prof. B.C. NAKRA (M.Tech. ME/ 1961/ Gokhale)

Dr. Samit K. Bhattacharyya (ME/ 1968/ Patel)

Prof. Lallit Anand (ME/1970)

C. N. Raghavendran (ARP /1966)

Dr. Satyen Mukherjee (E & ECE /1976/Azad)

Dr. Pradip K. Dutta (E & ECE/81/ Azad)

Prasad R. Menon (CH/1968/Nehru)

Prof. Kalyanmoy Deb (ME /1985 / Nehru)

Dr. Kaushik Roy (E& ECE/ 1983/ Azad)

Prof. Biswapriya Sanyal (B.Arch/1972)

Prof. Ned Mohan (EE/1967/Azad)

Late Saumyendra Nath Brahmachary (ME/1968/Azad)

Prof. Ramesh Kumar Agarwal (ME/68/VS)

Prof. Jammi Srinivasa Rao (ME - M.Tech./63, Ph.D./65, D.Sc./71)

Prof. Mahinder Kumar Jain (Maths / 1963)

Prof. P. K. Rajagopalan (Ph.D/EE/1959)

Nina Saxena Excellence in Technology Award

The Foundation Day of the Institute was celebrated on 18th August, 2011. The 5th Nina Saxena Excellence in Technology Award, a first of its kind India - wide Technical Innovation Award instituted by IIT Kharagpur in 2006 was presented to Indian Institute of Science Biomass Gasification Techonology (IBG), IISC Bangalore. Commemorating the spirit of Dr. Nina Saxena, B.Tech. (Hons.), ECE 1992, who passed away tragically in 2005, the award is an attempt to encourage and promote technical innovation with a social development focus. The award is the result of a lot of hard work on Nina's husband, Dr. Akhil Sahai's part; also our alumnus.

Faculty Recognition

Professor Sirshendu De, Department of Chemical Engineering, received Shanti Swarup Bhatnagar Prize, 2011 for outstanding works in Science and Engineering, from CSIR, Govt. of India.

Research Focus

- Membrane separations
- Transport Processes
- Flow through microchannels

Research Highlight

Prof. Sirshendu De works in various fields of Chemical Engineering with the thrust area in Membrane Separation Processes.
He has following contributions:

- Developed a membrane based technology for extraction of polyphenol from green tea leaves. This technology is transferred to a company for commercialization.
- Developed a membrane based technology for production of clarified coconut water, mosambi juice and water melon with high shelf life using cold sterilization.
- Developed membrane based technology for extraction of stevioside from stevia leaves.
- Developed membrane based technology for treatment of textile, tannery and paper mill effluent.
- Developed technology for a cost effective, indigenous hollow fiber spinning unit.
- Developed a technology for an inexpensive filter for arsenic removal suitable for rural people using laterite based adsorption.

Apart from these technologies, Prof De and his students have tremendous contribution in the fundamental studies. These include estimation of mass transfer coefficient in membrane channels in various geometries, flow regimes, rhelogies, etc. He developed an efficient solution and algorithm scheme using generalized integral method under the framework of boundary layer for the modeling of cross flow membrane filtration. He did pioneering works in flux enhancement techniques during membrane separation, including, electric field enhanced filtration, plasma assisted filtration, use of turbulent promoters, etc. He has significant contribution in micellar enhanced filtration and design protocols of membrane modules. His pore blocking models have tremendous practical impact in membrane fouling. He also has significant works in cloud point extraction, microscale heat exchange, flow modeling in microchannels and microreactors.

Sponsored Research Projects

- Production of low cost hollow fiber hemodialysis cartridge
- Field trial of low cost laterite based arsenic filter: Domestic and community scale

Awards and Achievements

- Silver Jubilee Young Engineer Award, 2012 from Indian National Academy of Engineering, New Delhi
- DAE-SRC Oustanding Investigator Award, 2012 from Department of Atomic Energy, Govt. of India.
- Fellow, Indian National Academy of Engineering, 2011.
- Herdillia Award, for the year 2010 for Excellence in Basic Research in Chemical Engineering, from Indian Institution of Chemical Engineers, 2010.
- Dr. A. V. Rama Rao Foundations's award, for supervising best PhD thesis of Dr. Chandan Das from Indian Institution of Chemical Engineers, 2010.
- Best Reviewer Award for year 2010 from Desalination, Elsevier.
- V.N.M.M award, for the year 2009 for innovative and creative work in the field of engineering in India in any discipline, by IIT Roorkee.

- Dr. A. V. Rama Rao Foundations's award, for supervising best PhD thesis of Dr. M. K. Purkait from Indian Institution of Chemical Engineers, 2007.
- Sisir Kumar Mitra memorial award from Indian Institution of Chemical Engineers, 2003
- Young Engineer Award, Department of Science & Technology, 2001 (Fast Track Scheme)
- INAE Young Engineer award for the year 2001 for excellence in basic research by Indian National Academy of Engineering.
- Amar Dye Chem award for the year 2000 for excellence in basic research in Chemical Engineering by Indian Institue of Chemical Engineers.
- K. F. Antia memorial award from Institute of Engg. India, for 1994-95 for the article 'Analytical solution of transient heat conduction with variable thermal conductivity in a finite domain'. The award was received from the President of India on Dec. 20, 1995 at Jaipur, India.
- "K. C. Khilar Memorial Lecture and Fellowship", Department of Chemical Engineering, IIT Bombay, 2012.
- "Shrimati Kusumben and Shri Mathradas Kothari Visiting Professorship in Chemical Engineering" in Institute of Chemical Technology (ICT), Mumbai for 2010-2011.
- Member of Award Committee of Indian Institute of Chemical Engineers, 2012.
- Six registered patents

Faculty Awards

Dr. Tarun Kanti Bhattacharyya receives IBM Faculty Award

Dr. Tarun Kanti Bhattacharyya, Associate Professor, Department of Electronics and Electrical Communication, has been honored with the IBM Faculty Award for 2012. T K Bhattacharya joined the Institute in 2000. He is the Prof-in-charge of Advanced VLSI lab. His research areas are MEMS and Microsystems, RF and Analog VLSI, Nano- electronics, Thinfilms, Nano-scale Biosystems Engineering. He has close to 40 publications and is running 9 industrial research and consultancy projects.

Prof. T Pathak honored with Dr. D. S. Bhakuni Award

Dr. Tanmaya Pathak, Professor, Department of Chemistry, has been awarded the Dr. D. S. Bhakuni Award for the year 2010, recommended by the Council of the Indian Chemical Society.

Prof. T Pathak joined the Institute in 2001. His research areas are Carbohydrates. Nucleosides. Heterocycles. Carbocycles. Back-bone modified dinucleosides.

Prof. Indranil Manna awarded J. C. Bose National Fellowship

Dr. Indranil Manna, Professor, Department of Metallurgical and Materials Engineering (currently on lien as Director, CSIR-Central Glass and Ceramic Research Institute, Kolkata), has been awarded the prestigious J. C. Bose National Fellowship, by the Department of Science and Technology, Government of India, New Delhi, in recognition to his active outstanding performance and contribution to Materials Engineering.

Prof. Manna did his Ph.D. from KGP and joined the Institute as faculty in 1985. Prof Manna is a metallurgical engineer, a renowned educator and a prolific researcher. His significant contributions in the studies of amorphous/nanocrystalline Al-alloys, nano-fluid and laser/plasma assisted surface engineering greatly inspired the scientific community.

Dr. Kousik Deb selected for IIT Roorkee Shamsher Prakash Research Award

Dr. Kousik Deb, Assistant Professor, Department of Civil Engineering, has been selected for the IIT Roorkee Shamsher Prakash Research Award for the year 2012, given by IIT Roorkee, for his achievements in soil science and engineering.

Kousik Deb joined the Institute in 2008. He has recently been awarded Fast Track Project Grant for Young Scientists - 2012 from Science and Engineering Research Council (SERC), Department of Science and Technology (DST), India (2012). His research areas are Slope Stability, Soil-Structure Interaction, Ground Improvement, Geosynthetic-Reinforced Earth and more.

Dr. Sabyashachi Mishra honoured by DST

Dr. Sabyashachi Mishra, Assistant Professor, Department of Chemistry has been selected by the Department of Science and Technology (DST), India, for the following : (i) Ramanujan Fellowship and (ii) DST INSPIRE Faculty Award.

Dr. Mishra joined the Institute this year. His research area is theoretical and Computational Chemistry in Molecular Physics and Molecular Biology.

Prof. A Bhattacherjee felicitated as the "Eminent Mining Engineer"

Professor Ashis Bhattacherjee, Department of Mining Engineering, for being felicitated as the "Eminent Mining Engineer", by the Institutions of Engineers (India), Kolkata for his valuable contributions to the field of Mining Engineering. This was on the occasion of the 23rd National Convention of Mining Engineers held on February 23-24, 2012 organized West Bengal State Centre of the Institution. Prof. Bhattacherjee joined the Institute in 1992. His research area is Occupational Health and Safety and Operations Research applications in mining.

Prof. A K Gupta awarded the prestigious J. C. Bose National Fellowship

Dr. Anil K. Gupta, Professor, Department of Geology and Geophysics has been awarded the prestigious J. C. Bose National Fellowship, by the Department of Science and Technology, Government of India, New Delhi. The fellowship is meant to recognize active scientists and engineers for their outstanding performance and contributions. Prof. Gupta joined the Institute in 1987.

Prof. Manish A Mamtani (Geology & Geophysics) wins National Geoscience Award

Dr. Manish Atmaprakash Mamtani, Professor, Department of Geology & Geophysics, has been selected for the National Geoscience Award by the Ministry of Mines, Government

of India, in recognition of his significant contribution in the field of Basic Geosciences. Prof. Mamtani joined the Institute in 1999. His research areas are Structural Geology and Microtectonics.

Prof. Suman Chakraborty, ME awarded for Research in Heat and Mass Transfer

Dr. Suman Chakraborty, Professor, Department of Mechanical Engineering, has been awarded Prof. K. N. Seetharamu Medal and Prize for Research in Heat and Mass Transfer, by the Indian Society for Heat and Mass Transfer, Chennai.

Prof. Chakraborty joined the Institute in 2002. His research areas are - Microfluidics and Nanofluidics, Interfacial Phenomena, Transport Phenomena in Materials Processing, Computational Fluid Dynamics (CFD)

Dr. Jayanta Das receives "IEI Young Engineers Award 2011-2012"

Dr. Jayanta Das, Assistant Professor (TT), Department of Metallurgical & Materials Engineering, has been selected for the "IEI Young Engineers Award 2011-2012" in Metallurgical and Materials Engineering discipline, awarded by the Institution of Engineers (India), Kolkata. Dr. Das did his Ph.D from TU Dresden, Germany.

His research areas are - Solidification and Non-equilibrium Processing, Metastable and Nanostructured Alloys, High Temperature Oxidation, Structure-Property Relationship, Phase Transformation

Dr. Rajib Maity awarded the "Emerging Leaders Fellowship

Dr. Rajib Maity, Assistant Professor, Department of Civil Engineering, has been awarded the "Emerging Leaders Fellowship 2011-2012", offered by Australia India Institute, based at the University of Melbourne, Australia. He has also received the award for IEI Young Engineers in 2011.

Dr. Maity did Ph.D. from IISc Bangalore and joined the Institute in 2008. He is an associate editor for the Journal of Civil, Environmental, and Architectural Engineering.

Prof. Anupam Basu won the NCPEDP - MphasiS Universal Design Awards 2011 in the category of Working Professionals

The National Centre for Promotion of Employment for Disabled People (NCPEDP), in association with AccessAbility and BarrierBreak Technologies, announced the awardees of The NCPEDP - MphasiS Universal Design Awards 2011. The awards which received an overwhelming response in its introductory year (2010) was given on the eve of Independence Day i.e. 14th August. Prof. Anupam Basu, from the Department of Computer Science and Engineering, IIT Kharagpur has won in category B for Working Professionals.

Awards in this category are given to people who work for the cause of accessibility and Universal Design in any of the areas such as built environment, transport infrastructure, service provision, information and communication technology (ICT), universally designed consumer products, mobility & independent living aids, or assistive technology.

Dr. Bhargab Maitra conferred the IRC-Pt. Jawaharlal Nehru Birth Centenary Award -2011

Dr. Bhargab Maitra, Associate Professor, Department of Civil Engineering, has been conferred the IRC-Pt. Jawaharlal Nehru Birth Centenary Award, for the year 2011, for his notable contributions to the profession, awarded by the Indian Road Congress, New Delhi. This Medal is awarded to a Scientist/Highway Engineer for conspicuously important and outstanding contribution to the development of roads in India. Dr. Maitra Maitra joined the Institute in 2001.

Director Prof. Acharya gets Biswasarai Award

Director Prof. Acharya was honored with Biswasarai Award for 2011 on September 15 during the Engineers Day celebrations organised by the Odisha Engineers' Forum. Justice MM Dash gave away the award for Dr Acharya's excellence in the field of engineering.

As an academician, Professor Acharya has the distinction of supervising more than thirty Ph.D. students, and publishing more than 85 papers in journals of repute. He is a consultant to many world-class companies, such as Tata Steel, General Motors, Hindustan Lever, and Tata Chemicals. His areas of interest and research include Operations Research, Production Planning and Control, Supply Chain, and Maintenance Management.

Young Faculty Fellowship Program

Dr. Amit Shaw

This award was launched in 2010 to recognize achievements by young faculty at the Institute. Under the Program, the Institute would select the faculty annually who would be eligible for - a Citation, a Rolling Trophy and financial incentive to be decided by the selecting committee jointly with TAA-BLR on a yearly basis. The faculty should be below the age of 35 years to be eligible under the program.

This year the fellowship has been awarded to Dr. Amit Shaw (Ph.D IISC Bangalore) of Civil Engineering Department. Dr. Shaw joined the Institute in year 2009. His key research areas are -

- Impact Mechanics
- Computational Mechanics
- Ballistic Response of Nano-Composite Armour
- Underwater blast

Dr. Shaw's present research is focused on several areas of impact mechanics particularly ceramic-metal composite armour for military vehicle and non-composite based flexible body armour. The overall aim of his current research is to propose a recipe for a satisfactory armour system for military vehicles and personnel against the types of threat likely to be encountered in the modern battlefield.

New Appointment

Dr. Sripada Venkata Joga Rao appointed as Dean, Rajiv Gandhi School of Intellectual Property Law

Dr. Sripada Venkata Joga Rao appointed as Dean, Rajiv Gandhi School of Intellectual Property Law. He joined the Institute as Professor and Dean on February 16, 2012.

Prof. Rao specializes in Health Care and Criminal Law. He has practiced law for about 9 years focusing on Healthcare Law and Ethics and coordinated the activities of Legalexcel - a firm of Advocates, Solicitors and Healthcare Consultants.

Before joining IIT-KGP Prof. Rao was with National Law School of India University. He was earlier lecturer at Sikkim Government Law College, Gangtok, Principal N.B.M. Law College, Visakhapatnam, Additional Professor of Law, National Law School of India University, Bangalore.

Prof. Rao is recipient of various gold medals and prizes a special mention to the Fellowship of Max-Planck Institute for Foreign and International Criminal Law, Freiburg, Germany.He also obtained the University FIRST RANK in B.L. and M.L. He has published a number of articles in various Journals and also published several books and participated in various conferences in India and abroad.

National Service Scheme (NSS)

The NSS activity is in place for over 25 years. Dr. Goutam Saha of the Department of Electronics and Electrical Communication is the Program Coordinator for the IIT-KGP NSS team. Dr. Saha along with the leadership team has been successful in energizing the program with all support from the Institute and in creating an enthusiastic team of volunteers. Under his leadership the team of about 1000 volunteers have done commendable community development work in 15 nearby villages or slums, each of which is supervised by one dedicated program officer. NSS has been involved in education of poor children from nearby villages, creating awareness related to governmental benefits available for tribal people and programs like MGNREGA, organizing health camps related to immunity and blood donation, organizing various social and cultural events, village road constructions, digging wells, constructing boundary wall for open wells, renovation of public utilities, arranging scholarships to needy students, providing safe drinking water in school and food-tray for midday meal, prevention of alcoholism, child marriage and promoting other welfare activities. Students take classes on Saturdays at primary schools and other educational institutions aided by government. Faculty program officers visit every Saturday and at times in the middle of the week to supervise the developmental work undertaken. They work in such a way that elected representatives like Panchayet, district administration like SDO, BDO and local community leaders are taken into confidence and work together for development initiatives. The immense success of the NSS team has led to reporting of IIT-KGP NSS activities to Prime Minister as part of NSS national activities. The Program Coordinator got special invitation to contribute to National Youth Policy 2012. The team is looking forward to involvement of larger IIT-KGP community to improve development- indices among the underprivileged neighbours around IIT-KGP campus.

From the desk of Training & Placement

Training and Placement section, like every year has continued its saga of success.

A total of 1663 +30(MS /Ph.D) students had registered for placement through campus during 2011-2012.

The final placement process started from 1st December, 2011 and will continue up to 30th June, 2012. In all more than 2500 companies were invited for campus visit by post as well as by e- mail, out of which above 200 companies actively participated in the campus placements till 30.03.2012 and all total of 1312 (77.49 %) placed through campus interviews including those who are expected to have opted for higher studies/got jobs through off campus.

Course/Degree	No. of students registered	No. of students placed	Percentage
B.Tech. (Hons.)	443	393	88.71
B.Arch. (Hons.)	022	017	77.27
5 yr. Integrated M.Sc.	108	095	87.96
Dual Degree M.Tech.	284	268	94.37
M.Tech/MCP	692	458	66.18
2yr. M.Sc.	114	051	44.74
Ph.D./Ms	030	030	100
Total	1693	1312	77.49

The offers covered a wide spectrum of industries such as Core Engineering, IT, Consulting, Financial , Analytics , R & D, PSUs, and academics .

The highlight of the placement season was Facebook which made 4 offers at a package of USD 125000 per annum in Silicon Valley. This is the maximum no. of offers made by Facebook across any IIT. The students who got the offers are Radhika Mittal (CSE-B.Tech.), Arun Dobriyal, Asish Kumar Yadav and Vighnesh Vadhani all from CSE-Dual degree. This is said to be best campus offer so far this season. The 2nd best offer was by Microsoft for a package of USD 119000 per annum for their Redmond US office with a total of 6 offers including 5 for its IDC office. EPIC also made 6 offers for USD 80000 per annum. The average salary this year has been an impressive Rs 14.5 lakh per annum, which is markedly better from last year.

Reliance Industries Ltd. recruited the highest number of students with 32 offers, Coal India and Oracle being the 2nd highest recruiter with 24 offers and Ericsson India 3rd with 20 offers. Among the foreign companies, the top recruiters were Rio Tinto and Schlumberger Asia both with 17 offers each.

The other recruiters with large number of offers were Samsung India (16), Tata Steel (15), CTS (14), Tata Motors (14), Qualcomm India (14), Cisco Systems (12), Infosys (12), ITC (12), GE (11), Z.S. Associates (11), NetApp (10), Paypal /Ebay (9). In addition to Bankbazaar with 17 offers, other finance companies also recruited in good nos. - Barclays, Deutsche Bank, Goldman Sachs, HSBC EDPI, with 8 offers each. Other sectors worth mentioning are IT, Consulting, Exploration and the core engineering and technology sectors. 18 companies from Silicon Valley recruited from the campus this year. Among the consults Boston Consulting Group, Essex Lake Group, Opera Solution, EXL Services and Deloitte visited the campus for recruitment.

Overall the placement season turned out to be remarkably successful for IIT Kharagpur with the maximum no. of offers and highest no. of companies amongst all IITs. A similar trend is expected for the placement season of 2012-13.

Gymkhana Report

Section I : Technology

In the technology domain of the Gymkhana, following the legacy of its predecessors, Kshitij 2012 could again establish itself as the Asia's largest techno-management symposium with many saying it to be the best edition yet. Kshitij 2012 saw a participation of 60000 budding technocrats from all across the country. The overwhelming response of participants to the submission events laid a fair foundation for Kshitij 2012. Kshitij for the third consecutive year, ventured into social sector, this time through Disha and Prayaas, events in which youth debated solutions for social and national security related issues. The four day extravaganza from 27th January to January 30th 2012 saw a footfall of 2400 outstation participants including students from eminent institutions like IITs, IIMs , NLUs , BITs and many more. The symposium played host to 45 events including Overnite(ACM/ICPC Multi-Provincial Programming Contest), Laws of Motion(IMechE certified Aircraft designing contest) AquaRanger (IMechE certified Airboat designing contest) Kryotech (ASHRAE certified HVAC design contest), Eureka(IEEE certified technical paper presentation) and ASME SDE drew a massive participation from the tech-savvy generation. The symposium was also marked with the honorable presence of numerous significant personalities like Naseeruddin Shah, Dr Holger Nielson (Father of String theory), Dr Antonio Ereditato (Director, Sub Atomic Particles Division, CERN),Prabhu Chawla, Robert Young Pelton (Adventure Journalist), Sir James Mirrlees (Nobel Laureate, Economics), Paulo Nespoli (Astronaut, NASA), Ajay Bhatt (Inventor of USB), James Hendlar (Father of Semantic Web), Federico Faggin (Father of Microprocessors) and Carlo Ratti (Director, MIT Senseable City Lab), who captivated the budding technocrats with their wisdom and experience.

The Technology General Championship concluded on the 8th of April this year, and with IDPs for Product Design and Chem-innovation, this year's GC set the trend for students to have a better experience with the industry. This year LLR hall of residence won the Technology GC with Azad hall of residence and Nehru hall of residence coming 2nd and 3rd respectively. LLR bagged the Innovation Cup, while Azad and Nehru bagged the knowledge and application cups respectively.

The Technology Robotix society took initiatives to conduct workshops for students in the cities of Kolkata, Ranchi, Durgapur and Kalyani. The winter workshop this year saw a participation of 180 students from the campus. The Robotix will also be travelling to the United States to participate in the Automated Ground Vehicle(AGV) competition this summer. The Quiz club team was one of the top 6 teams at the Tata Crucible Quiz Competition.

Section II: Sports

Indian Institute of Technology, Kharagpur celebrated its Diamond Jubilee this year and as part of the celebration, IIT Kharagpur hosted 47th Inter IIT Sports Meet where around 1500 athletes from all the 15 IITs took part. In addition, Volleyball (Girls) was introduced as a Demo event from this year.

This year new sports infrastructure facilities were constructed and started for Inter IIT and some changes were made in the sports venues.

- New changing room/pavilion for Cricket Grounds. We have 2 pitches now.
- Two football grounds in Tata Sports Complex.
- Two Synthetic Lawn Tennis courts.
- 3 New Indoor Badminton Courts.
- New Squash Court.
- One new basketball court and renovation of the existing 2 courts.
- 3 Volleyball courts

  and other further improvement of the grounds and courts.

  The Chief Guest for Inter IIT Aquatics Meet was Mr.Prashant Karmakar.

The Chief Guest for Inter IIT Main Meet was Ms.Poulomi Ghatak.

In a healthy competition and sports environment, IIT Kharagpur got Gold in Swimming & Bronze in Waterpolo,

Silver in Volleyball, and Bronze in Cricket & Basketball (M). With a healthy participation from the Girls of IIT Kharagpur, we were Runner's Up in the 47th Inter IIT Women General Championship, with Gold in Lawn Tennis & Table Tennis, Silver in Athletics and Bronze in Basketball & Badminton.

With the new Students' Activity Centre and the various sports venues, the Tempo for Sports in students has increased. Now that all the infrastructure needs are fulfilled, we expect the Inter IIT General Championship to be won by IIT Kharagpur and bring back the glory home in 48th Inter IIT, 2012. The General Championship (Men) Standings so far are as follows:

	Gold	Silver	Bronze	4th
Swimming	PATEL	RP	NEHRU	AZAD
Waterpolo	RP	PATEL	LLR	NEHRU
Wt. Lifting	RK	PATEL	NEHRU	AZAD
Football	LLR	NEHRU	MMM	AZAD
Tennis	AZAD	PATEL	MS	NEHRU
Athletics	NEHRU	PATEL	MS	RP
Cricket	AZAD	MMM-2	NEHRU	PATEL
Hockey	RK	PATEL	NEHRU	RP
Volleyball	MMM-1	PATEL	LLR	RP
Badminton	LLR	MS	RP	RK
Basketball	RK	PATEL	NEHRU	MS
Table Tennis	MS	PATEL	MMM	RK
Chess	PATEL	AZAD	RK	MS
Bridge	LLR	NEHRU	PATEL	AZAD

The Inter Hall General Championship 2011-12 was won by Patel Hall.

Acknowledgement

Abhishek Negi & PratyakshPathak, General Secretaries, Sports and Games, TSG '11-'12

Section III: Social and Cultural

Spring Fest 2012, the diamond jubilee edition was special in more than one ways. We saw Spring Fest successfully conducting the first ever IIT Kharagpur Model United Nations, the splendid performance by Makarand Deshpande and his crew notwithstanding. With a novel theme of cards, we saw a new event-"Shuffle". The dazzling performances by Mrigya, Parikrama, the sheer brilliance of Vishal Shekhar won hearts of the entire nation. We saw for the first time, the street play competition,"NUKKAD" going nationwide, with prelims being conducted in Delhi , Chandigarh and Kharagpur. All the dramatics events were judged and certified by Makrand Deshpande himself. The Israeli group- Shy-ben was another value addition to the glorious list of star performances. Spring Fest 2012 saw and exhibited once again the true spirit of youth, the joyous faces, the

spring boom all culminating into four days of awesomeness. As in the General Championship and Gymkhana activities the ups and downs and tit for tat are an unavoidable part of the sub-committee meetings-which somehow become memories which one cant forget.It was the first time a separate budget allocation took place for the outstationed participation of the societies which clearly reflected in their enthusiasm.With ETDS winning in Banglore, HTDS and TDS in IIM Calcutta and Debating club in countless Debates and Model United Nations the year was marked with memorable moments of societies bringing laurels to the institute. The formation of a film making and photographic society added new dimensions to the varied cultural activities under the gymkhana. Another social award under the pipeline is to add more 'social' part in the general championship.

As this remarkable journey culminates and we move into a new era, we would like to take this opportunity to acknowledge the support of those who have helped us to give shape to this marvelous edition. We would like to thank Professor Manish Bhattacharjee, Prof. MM Ghangrekar and Prof. A Rajakumar for their continuous guidance and support. Thanks to Mr. Prateek Agrawal for his never ending efforts in improving things for the students. The team behind Spring Fest-2012 Last but amongst the most important and hardworking, the secretaries of the Social and Cultural Sub-Committee-
