From the Director's Desk

Dear KGPians,

This Annual Report is a testimony of IIT Kharagpur's dynamism towards enhancing credentials as an Institute and create global footprints on the world map. With the book entitled 75 innovations of IIT Kharagpur as a contribution for a Self-reliant India, we are gearing ahead to seek an India that innovates for the world.

Our goal is to reach in the top 10 universities of the world. IIT Kharagpur is the only IIT in the country to have multidisciplinary departments in agriculture, law, healthcare, management, entrepreneurship, mining, architecture, leadership academy, academy of classical & folk arts etc.

Creating a difference in the world with desires, dedication and determination, this KGP trademark has been upheld by its alumni with exceedingly high expectations from decades. We have identified a diverse space to address resource utilization and modes to develop academic reputation of the Institute on the global scene. Our goal is to reach in the top 10 universities of the world. IIT Kharagpur is the only IIT in the country to have multidisciplinary departments in agriculture, law, healthcare, management, entrepreneurship, mining, architecture, leadership academy, academy of classical & folk arts etc.

The past few months living with a pandemic, have been tough for all of us but as it is said those who endure, conquer. Our Alumni Foundations in India & USA, have been a pillar of strength during the COVID -19 pandemic with their selfless donation of relief for the community workers and scholarships for the students. They have also been pioneer in raising funds to supply hospital beds to the new hospital at IIT KGP with the aim of improving the hospital infrastructure.

You, the Alumni are the face of IIT Kharagpur and a driving force that leads the Institute to the path of progression. I hope that this bond multiplies ten folds irrespective of boundaries and writes the golden history for the institution towards the Platinum Jubilee Celebrations.

Prof. Virendra Kumar Tewari
Director, IIT Kharagpur

Deputy Director's Message

Dear KGPians,

After almost two gruelling years, the Institute is returning to normalcy again. With renewed focus, energy and belief it is ready to take on any challenge that may come its way. We would like to thank our alumni around the globe for their constant support.

During the Covid-times Alumni have fought shoulder to shoulder with the Institute to support the livelihood of families of distressed Hall and community workers.

During the Covid-times Alumni have fought shoulder to shoulder with the Institute to support the livelihood of families of distressed Hall and community workers. They have continued their generous gifts flowing to the Institute in terms of Scholarships, Chair Professorships and other endowments.

I hope the alumni continues and intensifies their engagement with their alma mater and keeps building the incredible KGP story. My one line message to them would be CONNECT- COMMUNICATE- CONTRIBUTE.

Best wishes,

Prof. Amit Patra,
Deputy Director, IIT Kharagpur

Message from Dean Outreach

Dear KGPians,

Your alma mater aims to override these challenges of the post pandemic world and grasp new opportunities to become a global centre of excellence in research, academics, innovation, and technological development.

We have conferred DAA, DSA, Lifetime Achievement, and Lifetime Fellow awards to alumni who have contributed exceptionally in their field of expertise and community.

We have conferred DAA, DSA, Lifetime Achievement, and Lifetime Fellow awards to alumni who have contributed exceptionally in their field of expertise and community. We wish to strengthen the IIT ecosystem and establish IITKGP as a global ambassador of knowledge, learning, and excellence through such recognition.

We hope you can be a part of your alma mater's goal to achieve global excellence.

Best wishes,

Prof. Jayanta Mukhopadhyay
Dean Outreach, IIT Kharagpur

From the Associate Dean

Alumni Affairs and Branding

The alumni have contributed to multiple Chair Professorships and students scholarships.

Dear KGPians,

You have been a bedrock of support for us. I extend my heartfelt gratitude to all the Alumni foundations across the globe for their selfless support.

The alumni have contributed to multiple Chair Professorships and students scholarships. They have also helped in setting up numerous centres of excellence. The alumni are also engaging directly with students at the department level through the ADEP program.

We hope that this bond with your alma mater can be further strengthened in the years to come. Please help us help you engage better with the institute. Stay connected.

Best wishes again

Prof. Surjya Kanta Pal,
Former Associate Dean, Alumni Affairs and Branding
IIT Kharagpur

Overview of Institutional Development Program

Mission

To support the Institute's offer to strengthen domestic ranking as well as enhance IIT KGP's international stature.

Vision

Provide support for all-round growth plans of the Institute Implement a sustainable and scalable resource development program Leverage alumni and corporate relations for the growth of the Institute Promote the KGP Brand

Need for ID Program

Global competition

Foreign university entry

Scale and sustainability

Need for an organization, timely, result oriented, and effective program structure

Alumni Communication

Alumni Networking

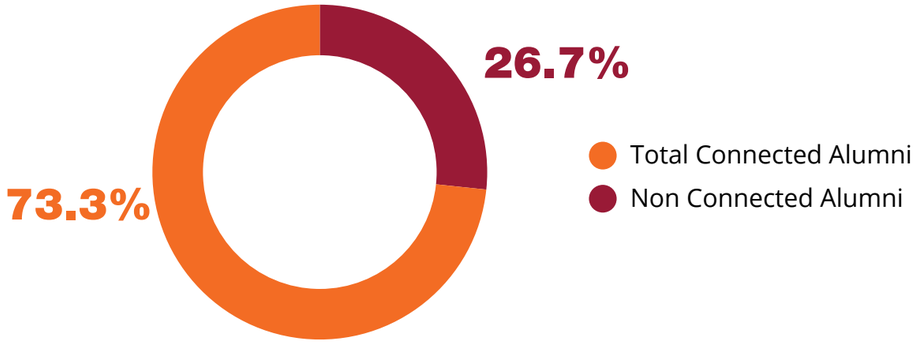

69,946

Total Alumni

51,273

Total Engaged Alumni

IIT Kharagpur happens to have the largest alumni base among IITs close to 70, 000. We achieved 73.3% connectivity with the alumni by the end of the financial year through registrations on the alumni website, annual alumni meet, visits, social media platforms, and other alumni engagement programs. Out of 69946 alumni, the institute is connected to and works with around 51273 alumni. Their impact helps shape our global reputation. The institute is very proud of its graduates and aspires to have an illustrious list of alumni who have not only strived to be the best in the world, but to be the best for the world. The institute would love to listen and interact with its alumni and know their success stories as Kgpian.

Networking, Interacting and Stay in Touch.....

Office of Alumni Affairs, IIT Kharagpur

Dear Alumni,
IIT Kharagpur takes pride in its esteemed alumni, who have been its torch-bearers all around the world. Hence, it gives us extreme pleasure in being connected with them and keep them updated with the recent happenings of the Institute. It is thus our humble request to our esteemed group of alumni to help us take a step forward in this cause. We request you to help us with the contact details of your batch mates and fellow KGPian's who are currently not connected to our office so that we can share the happening on our campus with everyone at a regular interval. That way, all of our esteemed alumni stayed informed about their alma mater.

If you locate a missing KGPian's from our list, please enter his/her details in the Google form below and help us to include him/her in our network.

Alumni Engagement

Alumni Philanthropic Support

IIT Kharagpur Alumni Foundation USA donated

INR 3,33,08,935

towards **COVID Relief Distribution Fund**, to provide financial assistance to around

10,500

unorganized sector workers who are dependent on the campus for livelihood and have been severely affected due to the lockdown.

The beneficiaries included daily wagers working in different eateries, ward boys of the hostels, laundrymen, tea stall owners, rickshaw-pullers, domestic workers and laborers engaged in construction projects.

The fund was created by 1967 Batch Distinguished Alumnus

VINOD GUPTA, known for his philanthropic work. Among the other alumni donors are

RANBIR (RON) GUPTA, ARJUN MALHOTRA, R N MUKHIJA, RAKESH GUPTA along with more than 100 donors from 1959 to 2017 batches.

Ration and essential commodities (5kg Wheat, 10kg Rice, 2kg Masoor Dal, 1lt Mustard Oil, 200gm Milk Powder, 1kg Sugar, 2 body soaps, 250gm Detergent Bar, 1kg Salt, 200gm Turmeric Powder, 100gm Tea, and 400gm Biscuits) worth 1200 INR were distributed to each person

Alumni Supported Scholarships

Brundabana Sahu Student Award

(Merit-based Award)

Brundabana Sahu Student Award was endowed by Dr. R.P.Sahu (1970/BTech/MT), in memory of his maternal grandfather Shri Brundabana Sahu, for a 1st-year B.Tech student to address any special needs of the awardee.

Dr. D Nasipuri Memorial Student Award

(Merit- based Award)

Dr. Asis Nasipuri (1987/BTech/E&ECE), son of Late Dr. Dhananjoy Nasipuri donated Dr. D Nasipuri Memorial Student Award. The scholarship would be given to a Second Year Female student of B.Tech and Dual Degree/Integrated MSc program in the Department of Chemical Engineering or 5 year Integrated MSc in the Department of Chemistry.

Dr R R Verma Prize for Best Master Thesis in Healthcare Technology

(Merit-based Award)

Dr R R Verma Prize was instituted by Mr.Peeyush Ranjan (1995/BTech/CSE) in the memory of his late father Dr. R. R. Verma, for the best M.Tech thesis on Healthcare technology across all the Departments, Centres and Schools of the Institute with an annual prize.

Krishna Sarma Abburi Endowment Award

(Merit-cum-Means)

Krishna Sarma Abburi Endowment Award was set up by Murali Abburi (1994/MT/LLR) in honour of his parents, Shri Sarma Venkata Kameswara Abburi and Smt Krishna Kumari Pasumarthi Abburi, which funds student from the class of 2nd year of B.Tech and Dual Degree programmes at the Department of Metallurgical and Materials Engineering of the institute for three years of their academic programme.

Late Shri Saradindu Sur Scholarship

(Merit cum Means)

Mrs. Suprabha Sur set up the Late Shri Saradindu Sur Scholarship in the fond memories of her husband Late Shri Saradindu Sur (1956/BTech/ME) to support the needy yet meritorious students of the Mechanical Dept. of the Institute.

Late Smt. Gopa Chakraborty Scholarship for Female Students

(Merit cum Means Scholarship)

Kate Smt. Gopa Chakraborty Scholarship was endowed by Mr. Debashis Chakraborty (1981/BTech/CHE) in the fond memories of his late wife Smt. Gopa Chakraborty for the female students of IIT Kharagpur across all the Departments, Schools, Centres and Academics with a special emphasis on the Departments of Chemistry and Chemical Engineering, by providing them yearly Scholarships. However, the Scholarship amount will be increased after every 4 years to cope up with the inflation rate.

Pradip Kumar Basu Memorial Student Scholarship

(Merit cum Means Scholarship)

Pradip Kumar Basu memorial Student Scholarship was set up by Mr. Indranil Basu (1987/BTech/E&ECE) in memory of his late father Shri Pradip Kumar Basu, to support a 2nd-year female student of IIT Kharagpur till her graduation.

Prof Sankar Kumar Som Memorial Award

(Merit-based Award)

Mrs. Banani Som, the wife of Late Prof. Sankar Kumar Som () instituted Prof. Sankar Kumar Som memorial Award, in the fond memories of her late husband to recognize the best M.Tech thesis in the field of Thermal Science at the Department of Mechanical Engineering of the Institute with an annual award.

Shobraj and Krishna Gajria Scholarship

(Merit –cum-Means Scholarship)

Shobraj and Krishna Gajria Scholarship was created by Mr. Chandrasen Gajria (1970/BTech/CHE) in the memory of his parents Mr. Sobhraj Gajria and Mrs. Krishna Gajria which would provide annual support to the needy yet meritorious students of the Chemistry Department of the Institute.

Vinod and Kiran Jain 1970 Batch Merit-cum-Means Student Award

Vinod and Kiran Jain Student Award was instituted in honour of Vinod Jain (1970/BTech/CH) and his wife Kiran Jain with support received from IIT Kharagpur Alumni Foundation USA, to be awarded to the Undergraduate students (except for 1st and 5th year students) belong to any Department/ Centre/School.

V V Dhruva Narayana Memorial Student Award

(Merit-based Award)

Mrs. Napina Vangipuram, the wife of Late Dr. V. V. Dhruvanarayana (1955/BTech/CE) set up V V Dhruva Narayana Memorial Student Award, to recognize a 2nd-year B.Tech student of Civil Engineering Dept. with an annual award as per the MCM criteria.

In the year 2020, 14 students from various disciplines and at various levels of study at IIT Kharagpur had been awarded scholarships by the IIT Kharagpur Foundation (IITKGPF) of USA,

to pursue research or internships at renowned academic institutions abroad. The grants were made available as part of the IIT KGP USA Foundation's "Award Program for International Internships".

The IIT Kharagpur Foundation, a non-profit organization headquartered at Nebraska, had offered USD 3000- 5000 per student towards expenses like airfare, stay and so on. The students completed their summer internships starting at some of the top global universities including California Institute of Technology, MIT, University of Illinois- Urbana, Georgia Tech and the University of Michigan in the US; NUS and Nanyang University in Singapore, Darmstadt in Germany and at Lausanne in Switzerland.

In the year 2019, IIT Kharagpur's alumni association- IIT Kharagpur Foundation USA awarded international internships to 15 students from the Institute at top global universities.

2020 IIT Kharagpur Foundation International Internships Awards

Student Name	Department	Program	Year	CGPA	Name of Host Institution

PAN IIT Alumni India (PIAI) organized Tech4Bharat.

PAN IIT Alumni India (PIAI) organized Tech4Bharat.The key feature of Tech4Bharat was the launch of an IIT Directors Forum attended by the Directors of majority of the 23 IITs. The forum deliberated the collaboration between the Forum, PanIIT Alumni and the industry to render feedback to the policy makers and provide execution support. It had three breakout groups – Global excellence in research, pedagogy, industry, collaboration; Sustaining momentum in funding, infrastructure, faculty, policy; Need for speed in challenges, status, expertise, handholding. The panel discussions covered areas such as artificial intelligence, IIT & industry effective collaboration, global excellence – creating world class educational institutions.

Talking at the Conclave, Director Prof. V K Tewari reminded of the success of the older IITs and the contribution of the alumni which has led to 23 IITs. The Director spoke about revisiting the teaching-learning domain at IITs to evaluate the contributions and their impact – whether in agriculture and food engineering, in the area of manufacturing, cyber security, architecture and regional planning, naval architecture, mining. The focus for every academic and research units would be now on innovating hardware and software or the system which are result oriented and solution oriented for the common man. The Director confirmed taking initiatives levering the expertise at IIT Kharagpur to develop such products, processes and systems and hoped to deliver by the end of coming three years.

The other IIT Directors who participated in the Forum were Prof. Abhay Karandikar, IIT Kanpur, Prof. T G Sitharam, IIT Guwahati, Prof. Rajat Moona, IIT Bhilai, Prof. Anurag Kumar, IISc, Prof. Rajesh Gopakumar, ICTS-TFR, Prof. Anil Sahasrabuddhe, AICTE. IIT Madras was represented by Prof. Mahesh Panchagulla, Dean, International & Alumni Relations.

The other key speakers and panelists included C. N. Ashwath Narayan, Deputy Chief Minister, Karnataka, Gaurav Gupta, Principal Secretary, Govt. of Karnataka, Dr. K Raghavan Chief PM/Biometric Architect, UIDAI, Arnab Kumar, Niti Ayog, Shashi Bhushan, CTO (Bus & Tech services) at TCS, Dr Venkat Padmanabhan, Dy. Managing Director, Microsoft Research, Kallappa Pattada, Head R&D, Boeing India, Dr Manish Kumar, MD, National Skill Development Corporation.

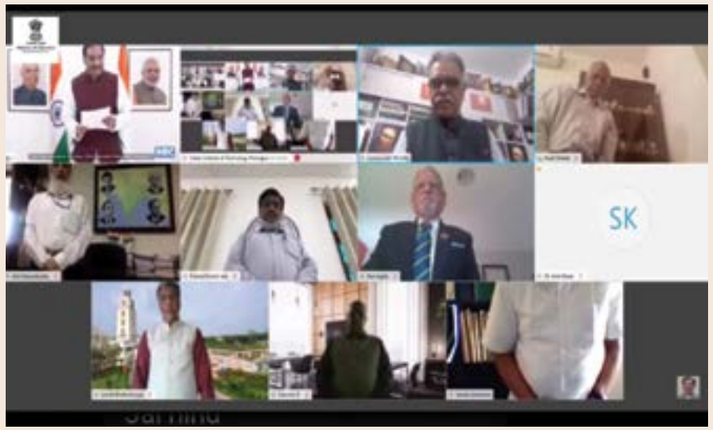

The Conclave also held Solve4Bharat, a 24-hour hackathon to provide an opportunity to talented teams from all across the country to showcase their skills in applying technology to solve the day-to-day public issues in Healthcare, Education and Mass Transportation.

IIT Kharagpur Alumni Foundation USA and IIT Kharagpur organised an International Webinar on “India: The Global Destination for Higher Education: Post NEP 2020 Scenario”.

IIT Kharagpur Alumni Foundation (India) in partnership with IIT Kharagpur organized an International Webinar on ‘India: The Global Destination for Higher Education: Post NEP 2020 Scenario’. Spread over the two days on October 9 and 10, 2020, eminent experts from Indian and global academia deliberated on policy recommendations for the Ministry of Education, Govt. of India, towards the internationalization of Indian higher educational institutions in the light of the New Education Policy 2020.

The mood was set by Prof. V K Tewari Director, IIT Kharagpur and the patron of the webinar and Commander V K Jaitly, Chairman of the webinar. Cdr Jaitly reminded the audience how the recommendations forwarded in the first edition of this initiative in 2017 were incorporated in NEP 2020. Prof. Tewari expressed his views about measuring the contributions of IITs over the decades in the light of the continuing exodus of young Indian talents abroad and product development with global market potential. He believes NEP 2020 has brought the opportunity to finally promote internationalization both inbound and outbound, through semester away and credit transfer programs. He welcomed the concept of a multi-education research university floated under NEP 2020 which will have a long-term impact on the reputation of institutions such as IIT Kharagpur.

The then Hon’ble Education Minister Shri Ramesh Pokhriyal ‘Nishank’ who was the Chief Guest talked about how NEP 2020 has been in sync with global education programs including a credit bank system enabling students to take a break while pursuing their academic programs and awarding certificates, diplomas and degrees. Thus international students would not feel burdened with long-term commitment.

He expressed concern over the outflow of billions of dollars every year for foreign education despite the strong higher education system and research facilities in the country especially now with the announcement of NEP 2020 and the proposed National Research Foundation. He gave the mantra of 'Stay in India' and 'Study in India'.

The panelists including Secretary, Dept. of Higher Education Shri Amit Khare contemplated increasing the reach to foreign students under NEP 2020 through online education such as SWAYAM. He also weighed on leveraging the researchers' network of GIAN and SPARC programs and creating short-term courses for one or two semesters under NEP 2020, in addition, to extensively covering social aspects of cyber-physical research. This idea was further supported by Prof. R T Krishnan, Director, IIM Bangalore who observed that foreign students often opt for short-term courses instead of long commitments due to the uncertain factor of the cost of education. Prof Sandeep Sancheti, VC, SRM University, however, leaned towards a Master's program which he believes can bring international recognition. Prof. M K Surappa, VC, Anna University talked about the contribution of engineering colleges other than IITs both private, central government and those with state universities. Chairman, AICTE Prof. Anil Sahasrabudhe talked about creating a silo of the Indian knowledge system, which has been emphasized under NEP2020, catering to the interests of foreign students.

Revisiting the admission system to Indian universities and funding mechanisms were also discussed. While Prof. Sudhir Jain, Director, IIT Gandhinagar remarked on publicizing funding schemes through webinars and promotional activities by Indian foreign offices, Prof Souvik Bhattacharyya, VC, BITS Pilani opined on the need for a contemporary and youthful approach in the funding and communication programs and improve the perception by engaging existing foreign students as brand ambassadors. Prof. Geeta Mehta from Columbia University and President, Asia Initiatives pointed out the lack of brand awareness about IITs abroad among the general public despite the reputation in the corporate sector. Prof S Vaidhyasubramanium, VC, Sastra Deemed University talked about looking for opportunities in the neighbourhood of SAARC, while Dr R Gopal, Director, Member, Board of Management, DY Patil School of Management (Deemed to be University) emphasized on the importance of the consortium approach for marketing the Indian universities abroad.

The issue of bottlenecks in the admission of foreign students was raised by Prof. Pramod K Jain, Director, IIT (BHU) Varanasi who advocated the need for making the admission process and other regulations lucid for the foreign students. The possibility of globalizing NTA and other admission programs was also discussed. US Consul General from Kolkata Ms. Patti Hoffman reflected on the role of international offices at individual institutions to provide the core support system along with exploring collaborative opportunities through designing customized joint programs under NEP 2020.

A key area that was discussed across all the panels was infrastructural development catering to the living experience and overall campus life of the international students. Prof. Souvik Bhattacharyya, VC, BITS Pilani, called it a deal-breaker and stressed on the need for alternate methods to procure funds for infrastructural development.

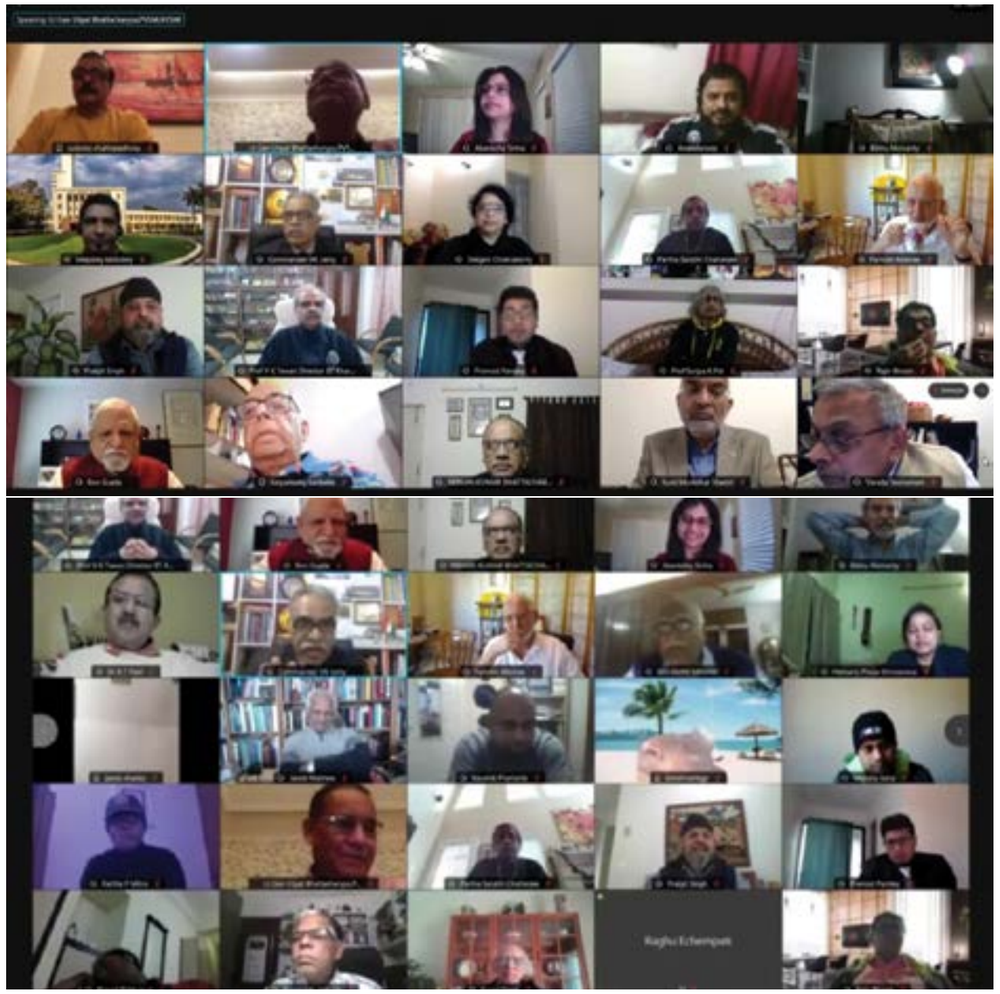

Another area that found repeated mention was the creating international presence of Indian higher educational institutions through setting up outreach centres working in close association with the foreign offices of the Govt. of India. Prof. Pradeep Khosla, Chancellor at the University of California San Diego noted how US universities have addressed this in UAE. This idea found further support among academic experts from the USA with Prof. Prabhat Hajela, Provost, Rensselaer Polytechnic Institute extending the idea to conducting outreach initiatives addressing safety and infrastructural issues by means of induction programs to improve the perception of Indian institutions and foreign students' enrollment.

The concern of return on investment was expressed by Prof. T G Sitharam, Director, IIT Guwahati who mulled on making internships and employment opportunities available to foreign students. This thought found a distant answer in the deliberations of Prof Prith Banerjee who stated how the students from universities such as Stanford contemplate having their startups than joining corporate jobs and the role the universities play in grooming the students for entrepreneurship.

Commander VK Jaitly, the Webinar Chair stressed the need for setting up a Task Force at the National level and its cells in all the HEIs engaged in the objective of attracting foreign students for higher studies in different schemes. The sessions were coordinated by Prof Sukumar Rangachari, academician and entrepreneur, Shri Rajah Venkatraman, Webinar Convenor, Ron (Ranbir) Gupta, President, IIT Kharagpur Foundation USA and Varadarajan Seshamani, President, IIT Kharagpur Foundation India as session coordinator. The webinar was co-sponsored by IIT Kharagpur Foundation USA, PanIIT USA and PanIIT India.

Face to Face with Alumni: Director of IIT Kharagpur

IIT Kharagpur Alumni Foundation India and IIT Kharagpur Foundation USA jointly organized an interactive session- "Face to Face with Alumni: Director IIT Kharagpur on Challenges and Achievements in 2020", on 27th December, 2020.

IITACB's First Ever IIT Industry Conclave 2020

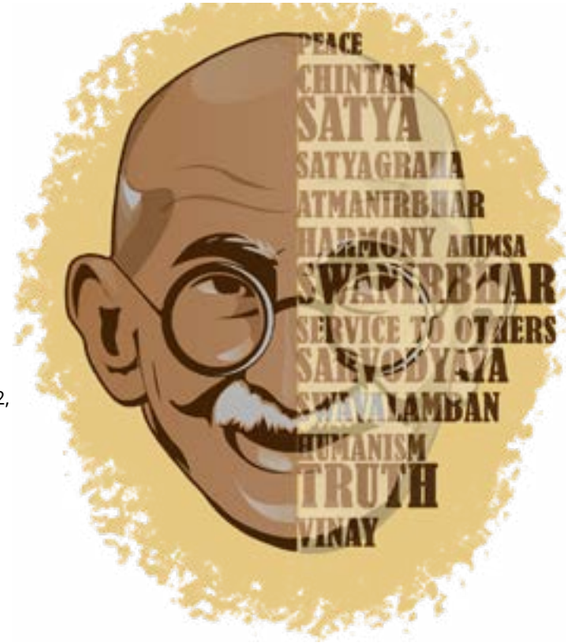

PAN IIT Alumni body organised IIT Industry Conclave 2020 on February 8 at IIT Alumni Centre, Bangaluru, where Prof Virendra Kumar Tewari, the Director of IIT Kharagpur shared his views on focus towards product development and benefiting the last man of the society through commercialization and increased reach. The other panelists were Prof. Uday Desai (IIT Hyderabad), Prof. N Balakrishnan (IISc), Mr. N Krishnakumar (Former Chairman, Mindtree and NASSCOM) and Mr. Arnob Roy (COO, Tejas Networks).

Another key speaker at the event was Prof. Surjya K. Pal from the Department of Mechanical Engineering, IIT Kharagpur talking about how MSME outreach could help set the pace for India in the area of Advanced Manufacturing. The event was followed by an interactive session with the Kgpians in the region organised by TAAB. The alumni shared their aspirations as stakeholders. Also present on the occasion was the illustrious Kgpian Dr. Y P Singh.

International Symposia on Mahatma Gandhi

IIT Kharagpur brings Global Academia to Retrospect on Gandhian Thoughts and Philosophy.

The international e-symposia which started on August 8, 2020, the anniversary of the launch of the Quit India Movement in 1942, could not have a more befitting close than the day marking the anniversary of the historic civil rights march at Washington DC in 1993 and the iconic speech of Martin Luther King Jr.- "I have a dream". IIT Kharagpur's month-long celebration of Mahatma Gandhi's 150th birth anniversary was organized by the Office of Alumni Affairs and the Office of International Relations in association with the top global universities, as a part of an initiative by the Ministry of Education, Govt. of India under the SPARC program. Academics from universities in the USA, UK, Australia, Canada, New Zealand and Gandhian experts from India including professors from IIT Kharagpur deliberated on "Gandhian Thoughts and Philosophy" through webinars.

The webinars were scheduled on August 8 with Massachusetts Institute of Technology, USA and Gandhi Forum, India, August 15 with Tufts University, August 20 with University of Manchester, UK and University of Texas Arlington, USA, August 27 with University of Leeds, UK, University of Melbourne, Australia, University of Auckland and Massey University, New Zealand, and August 28 with the University of Alberta and University of Toronto, Canada.

The themes included Sarvodaya-universal upliftment or progress for all and Swavalamban- the quest for self-reliance, Gandhian legacies in the World Today, Branding Gandhi, Gandhian Economies for Growth in India: From Atma Nirbhar Bharat to Sarvodaya, Philosophy of Gandhian Economics, Gandhipedia: a one-stop portal for browsing Gandhian literature, life-events and his social network. The event attracted m0re than a thousand participants from across the globe.

The speakers were:

Prof. Bishwapriya Sanyal, Ford International Professor of Urban Development and Planning, Director of the Special Program in Urban and Regional Studies/ Humphrey Fellows Program, Massachusetts Institute of Technology, USA. Prof. Sanyal is also an alumnus of IIT Kharagpur. His topic was 'Sarvodaya'.

Dr. Brent D Ryan, Head of the City Design and Development Group and Associate Professor of Urban Design and Public Policy in MIT's Department of Urban Studies and Planning, spoke on 'Swavalamban'.

Dr. Shobhna Radhakrishna, Founder, Gandhian Forum for Ethical Corporate Governance, narrated her life-long experience and a lifestyle in the practice of Gandhian thoughts and philosophy such as Satya, Ahimsa through her association with Gandhian ashrams. She also spoke about Gandhipedia and her role in this one-stop online repository of Gandhian literature developed by IIT Kharagpur in association with IIT Gandhinagar and Ministry of Culture, Govt. of India.

Shri Arunendu Banerji, renowned Artist-Engineer; Director, STS System and Advisor, Viswabharati and Rabindrabharati University, rightly pointed out the need of understand the practicality and technicality of Swavalamban for realizing Atma Nirbhar Bharat.

Prof. Partha Ghosh, Professor of Practice, Tufts University, USA. His topic was Sarvodaya.

Prof. Chhanda Chakraborti, Professor of Philosophy at the Department of Humanities and Social Sciences of IIT Kharagpur, touched on the very objective of the symposia- deliberations on repurposing of Gandhian thoughts and philosophy in the context of 21st century challenges and our journey ahead.

Prof. Kanchan Chowdhury, Chairman of Partha Ghosh Academy of Leadership and Professor of Cryogenic Engineering, IIT Kharagpur, spoke on the topic "Sarangati- Surrender to the devine".

Prof. Anindita Ghosh, who is a British historian, and Professor of Modern Indian History at the University of Manchester, UK, spoke about how Gandhian non-violence has repeatedly found its place in the movement

Dr. Swagato Chatterjee, Assistant Professor at Vinod Gupta School of Management

Ritu Gairola Khanduri, Associate Professor of the University of Texas at Arlington, USA

Prof. Partha Roop, Associate Dean (International) for the Faculty of Engineering and Professor at the Department of Electrical and Computer Engineering, University of Auckland, New Zealand.

Dr. Giresh Kanji, an Associate Professor at Auckland University, New Zealand and the Chairperson of the NZ Pain Foundation. He is a Musculoskeletal Pain Specialist and Researcher.

Mr. Aron Jeremiah from the University of Auckland, New Zealand

Dr. Surender Munjal, an Associate Professor of International Business at University of Leeds, UK

Prof. Udaya Parampalli, Professor in the School of Computing and Information Systems, the University of Melbourne, Australia and leads strategic research on Quantum computing.

Dr. Animesh Mukherjee, an Associate Professor at the Department of Computer Science and Engineering, IIT Kharagpur

Dr. Florence Glanfield, Vice Provost (Indigenous Programming and Research) and a professor of Mathematics Education in the Department of Secondary Education. She is a Faculty member with the Centre for Research for Teacher Education and Development at the University of Alberta, Canada.

Dr. Reva Joshee who is an Associate Professor in the Department of Theory and Policy Studies of the Ontario Institute for Studies in Education at the University of Toronto, Canada, spoke about Gandhian ideas and education in Canada along with the influence of Mahatma Gandhi Canadian Foundation for World Peace.

Prof. Mijung Kim, Professor at the Department of Elementary Education, Faculty of Education at the University of Alberta, Canada.

With India journeying through the pandemic, global economic turmoil, trade war with China and the 'Atma Nirbhar Bharat' mantra of Govt. of India, we Indians are embracing a dream, and not so strangely this dream is quite similar to one, once explored by the man who shaped the history of modern India – Mahatma Gandhi.

The five symposia organized by IIT Kharagpur in association with global universities in USA, UK, Canada, Australia and New Zealand, reaffirmed the fact of Gandhiji's relevance in possibly all facets of our socio-economic lives. The symposium

The symposia found its apt closure in Gandhiji's favourite song 'Vaishnava Jana To', written in the 15th century by the poet Narsinh Mehta in the Gujarati language, performed by Dr. Anandaroop Bhatacharya, an Associate Professor of the Department of Mechanical Engineering and Associate Dean of the Office of International Relations, searching his soul's universal connections through music, in the spirit of the Mahatma's idea of pursuing fine arts beyond the alphabet of learning.

All the videos of the symposia are available online.
Click https://kgpchronicle.iitkgp.ac.in/e-symposia-gandhi-thoughts-philosophy/ to watch.

Celebration with the Alumni of Batch 1979

Interactive Sessions

Dr. Soumyajit Mandal (2002/BTech/E&ECE), T. and A. Schroeder Assistant Professor from the Department of Electrical Engineering and Computer Science of Case Western Reserve University, was at IIT Kharagpur, to take a week-long course on "Instrumentation and algorithms for biomedical imaging: MRI and Ultrasound" under the institute's SGR International Faculty/ Expert Outreach Program.

The course is aligned towards instrumentation and signal processing algorithms (or strategies) while focusing on physics and engineering of the applicable methods. The course was attended by the senior MTech and PhD students.

During his stay, he also participated as a mentor in the induction program for the first year Undergraduate students, sharing his experiences in college.

Panel Discussion on "Live and Learn- The KGP Way", held by the IIT Kharagpur Alumni at the Netaji Auditorium in the campus.

The panelists were:

- 2002's President Gold Medalist of IIT Kharagpur- Dr. Soumyajit Mandal, Assistant Professor of Case Western Reserve University, Cleveland, Ohio.
- Swimmer and athlete- Mr. Koushik Banerjee, from Nomura.Inc, Singapore
- Sitarist- Professor Pallab Dasgupta, then Dean of Sponsored Research and Industrial Consultancy, IIT Kharagpur
- Violinist and Author- Mr. Sudipto Das
- Vocalist- Associate Professor Anandaroop Bhattacharya, Associate Dean of International Relations

Around 1200 students gathered at the auditorium to attend the session. The entire session was about introducing IIT KGP from a new horizon altogether- a place that has much more to provide than just labs, lectures, CGPAs and placements.

On December 05, 2020, Agri-Business Incubation Centre (ABIC), IIT Kharagpur had organized a webinar series to encourage and motivate college/university students, rural unemployed youth and entrepreneurs in the domain of Agri-Food Startups.

The series had been graced by distinguished alumni of IIT Kharagpur and other entrepreneurs who had shared their success stories. Shri Mayank Jalan, CMD, Keventer Agro Ltd., President, Indian Chamber of Commerce and Shri Awadhesh Kumar, GM, NABARD RO Kolkata graced the event as the Chief Guest and Guest of Honour respectively. Chief Guest Shri Mayank Jalan spoke on the topic entitled "Emerging Agri-Tech Startups: Issues and Challenges".

The speakers were the alumni of IIT Kharagpur. They were:

Mr. G S Tuteja, Director of Process Engineering Company, Ghaziabad. His topic was Agri Food Startups: Roadmap to Success

Mr. Manish Kumar, Co-founder and CEO at Back to Village, B2V, Odisha. His topic was Role of Technology in Micro Agri-Enterprises.

Mr. Tauseef Ahmad Khan, Co-founder and CEO at Gramophone, Indore. His topic was Agri Market Places: How Ag Tech is disrupting the Farm to Fork value chain.

Academy of Classical and Folk Arts

IIT Kharagpur launched Academy of Classical and Folk Arts in the spirit of NEP2020 to inculcate the spirit of innovation and inclusive learning. On the occasion of the institute's 70th Foundation Day (18th August, 2020), IIT Kharagpur launched the Academy of Classical and Folk Arts to nurture the creative talents of the Institute through an immersion in music and fine arts. A first in the IIT system, the academy would be offering regular training on music, fine arts and other performing arts, and run micro credit courses for students.

The academy has been supported by the institute's distinguished alumni, Mr. Arjun Malhotra, Dr. Kiran Seth, Mr. Mukund Padmanabhan and the members of the IIT Kharagpur Foundation, USA.

The objective goals of the academy consist of education, outreach, heritage preservation, research and innovation. The education offerings include regular training on music and fine arts, periodic workshops and thematic sessions, and micro-credit courses connecting science and heritage. The outreach activities aim to touch participants all across the world through MOOCS courses and live classes, with the goal of exposing them to the unique creative liberty and deep scientific foundations of Indian Classical Music. Finally the cornerstone of the Academy is research and innovation to reinvigorate the practice of Classical and Folk Arts through scientific innovations, ranging from manufacturing of instruments to developing a modern pedagogy of teaching-learning. The academy would also pursue collaborative research in science and technology interventions in Indian classical music and other art forms that would not only help preserve India's rich heritage but also create new teaching-learning resources.

The academy is working in close collaboration with Padma Bhusan Pt. Ajoy Chakrabarty, Distinguished Professor and Mentor of this academy, who graced the inauguration and conducted a unique workshop called "Sur-O-Srishti": The Science and Philosophy of making Indian Music" connecting the principles of learning music and rhythm with that of cultivating scientific innovation abilities. Hindustani classical vocalist Pandit Ajoy Chakrabarty is heading the '100 ragas' initiative of the academy. It aims to formulate deep structures of Indian ragas by forging creative arts with cognitive sciences. Pandit Ajoy Chakrabarty delivered a lecture-demonstration on how learning music can help in developing necessary traits for scientific innovation.

Lecture Demonstrations

Lecture Demonstration #5
31-10-2021 (05:30 PM)

Pandit Abhijit Banerjee

Gharanas of Tabla and their Relevance in Modern Times

Lecture Demonstration #4

Pt. Ajoy Chakrabarty

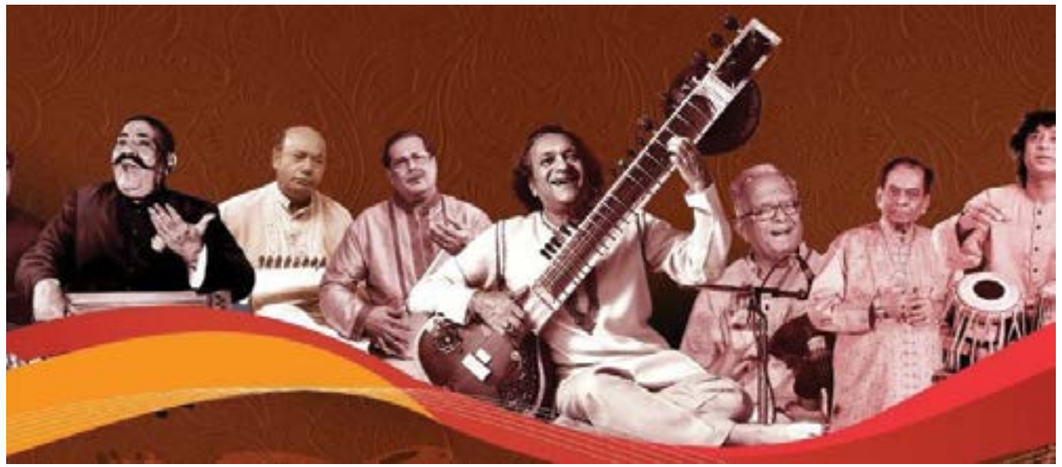

Indian Music – It's unity in diversity (Part-3)

Lecture Demonstration #2
June 20, 2021 (10:00 AM)

Pt. Ajoy Chakrabarty

Indian Music – It's unity in diversity (Part-1)

Vinod Gupta School of Management

The Vinod Gupta School of Management (VGSoM) was the first school of management to be set up within the IIT system. The School, which was seed funded by IIT Kharagpur distinguished alumnus and a Life Time Fellow of the institute, Mr. Vinod Gupta, focuses in several multidisciplinary areas of research and development in the institute as well as collaborative projects. Vinod Gupta School of Management has been ranked 5th in the list of India's best B-Schools as per the prestigious NIRF India Rankings 2020 which is curated by the Ministry of Human Resource Development. VGSoM is also ranked 7th by QS World University Rankings of Indian Business and Management Studies in 2019. This school has also been recognized as one of the Best B-Schools yet again, by the Business Standard Ratings of 2020.

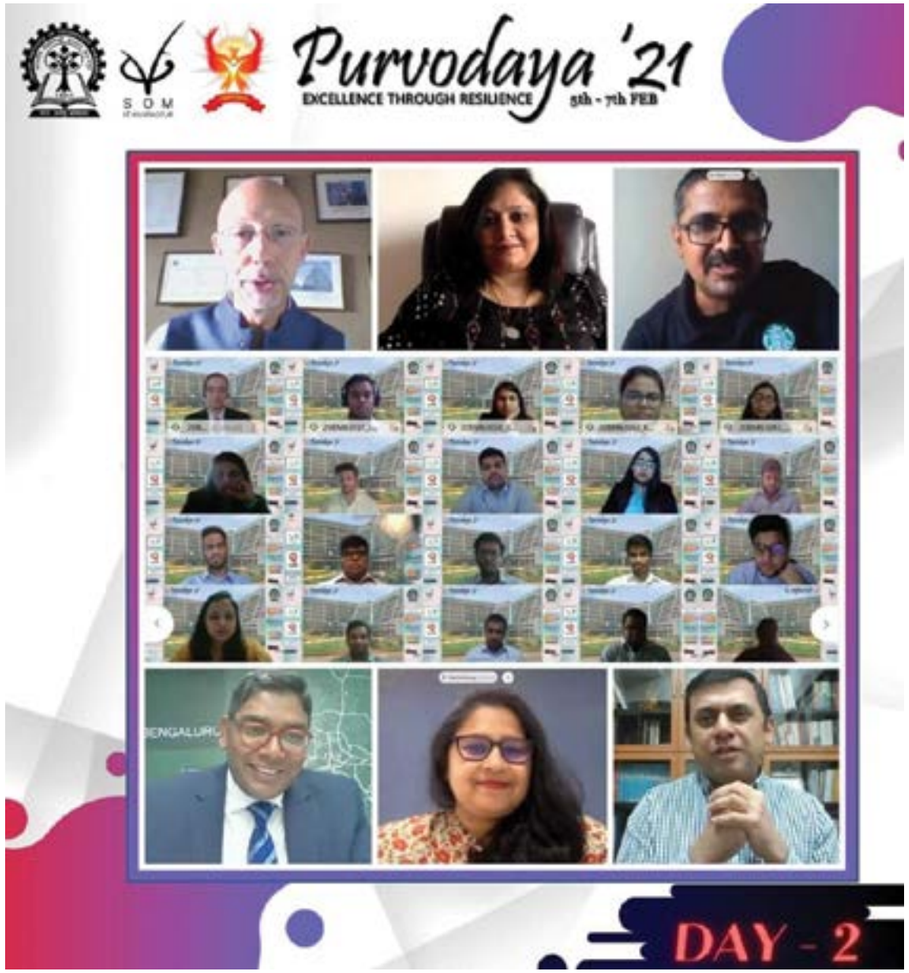

Purvodaya

A 3-day amalgamation of events spread across all domains of business and management provides an ideal platform for the bussing managers and innovators of today to hone their skills and test their mettle against their peers. Centered upon the theme “Thinking the Unthinkable”, the fest hosted an assemblage of events with the collaborative efforts of VGSoM clubs and committees in the year 2020.

In the year 2021, Vinod Gupta School of Management (VGSoM) hosted the first-ever online adaptation of institute’s Annual Business School Fest PURVODAYA, an amalgamation of events spread across all the domains of business and management. The theme was “Excellence through Resilience”. The fest also played host to Reminiscence, the annual alumni interaction session that is a testament to the institute’s legacy. This festival provides an ideal platform for aspiring leaders to sharpen their skills as top B-school talent across the country come together to test their prowess against their peers. Deliberations with renowned industry stalwarts are also spaced throughout the event to inspire the budding managers in their corporate journey ahead.

Purvodaya '21
EXCELLENCE THROUGH RESILIENCE 5th - 7th FEB
DAY - 2

HR Conclave

The Vinod Gupta School of Management organised an HR Conclave in September, 2019, addressing new avenues in Human Resource Management through HR Innovation and Up-skilling. A panel of India's top HR experts, comprising of Satyajit Mohanty, CHRO, Crompton Greaves Consumer Electricals; Sonia Sahgal, Director of University Recruiting, Microsoft India; Sonali Misra, Head-HR, Brain and Company (India); Vivek Vyas, Country Head, Employee Relations, Royal Bank of Scotland; Yamini Krishnan, Director- HR, IQVIA and Hetal Sonpal, a TEDx Speaker, Angel Investor and a Mentor of Change at Atal Innovation Mission attended the Conclave at the IIT Kharagpur campus, debated on the impact of technological innovation on HRM.

HR Conclave 2020: On 3rd October, 2020, VGSoM conducted its online HR Conclave- Vaachna. The discussion was on the topic "Diversity and Inclusion in the new normal- Building collaborative workplaces".

The Vinod Gupta School of Management, IIT Kharagpur conducted a Management Development Program on "Project Planning, Implementation, Monitoring and Evaluation" for the Senior Officers of Public Sector Enterprises from 15th – 19th July, 2019 and from 14th – 18th January, 2020. Besides, a session on "Mindfulness and Happiness" was arranged for the participants. It was sponsored by the Ministry of Heavy Industries and Public Sector Enterprises.

A Five-Day-Long Management Development Program on "Data Analytics and Applied Machine Learning with R Programming" for officers of Indian Economics Services, was conducted by VGSoM from 30th September – 4th October, 2019.

Mr. Sourav Neogi, Managing Director of Accenture and an alumnus of IIT Kharagpur, visited its alma mater and participated in an invigorating and engaging session as a speaker. He shared his insights on the importance of developing and maintaining networks, navigating personal and professional lives and paying back to society would be cherished by the budding managers of VGSoM for years to come.

The School also conducted Mid-Career Training Courses for Officers of Rajasthan Accounts Service in two batches during February, 2020.

The School also hosted its flagship Guest Lecture Series- 'Vaarta' and 'Pratyaksh' during the autumn 2019 semester.

VGSoM, IIT Kharagpur for the first time collaborated with Singapore Management University for a week-long International Immersion Program for the MBA and EMBA students. The programme saw a participation of 17 MBA and 8 Executive-MBA students from VGSoM and is aimed at providing a B-school experience that complements classroom concepts with the dynamics of functioning on an international platform. The current batch of students enrolled in this programme have had an amazing learning journey at the Singapore Management University, Singapore and are actively engaged in 5 business projects under the aegis of companies like GSK, Fullerton Financial Holdings etc. The students also visited one of Asia's top multi-asset exchanges - the Singapore Stock Exchange, commonly called SGX, as a part of the industry connection in Singapore.

Subir Chowdhury School of Quality and Reliability

> Quality combines people power and process power..... The costs of poor quality are tangible; they will cost you customers and money, and ultimately affect the success of your business
>
> ***Subir Chowdhury**, Quality Guru, Distinguished Alumnus Awardee*

School on Quality and Reliability (Q&R), named after Renowned Quality Expert and distinguished alumnus of IIT Kharagpur, Dr. Subir Chowdhury is first of its kind in Asia. Subir Chowdhury School of Quality and Reliability is established by upgrading the Reliability Engineering Centre (since 1983).

IIT Kharagpur, which has pioneered in several academic disciplines in India, has taken up the responsibility to train industry professionals and academicians through courses and training modules to develop the new age quality professionals at the Subir Chowdhury School of Quality and Reliability. In India, while Quality courses are offered by most of the universities as part of the industrial engineering program at the undergraduate level, specializations in quality are mainly offered by a few IITs only at the postgraduate level. However, IIT Kharagpur is the only institution in India to offer a comprehensive M. Tech program in Quality and Reliability Engineering. Besides, the school offers MS and PhD programs in various domains of quality and reliability such as network, human, software, maintenance engineering, probabilistic risk and safety etc. In addition to postgraduate degree programs, core courses, electives and micro-specializations for students of the institute, the school has been organising short-term courses for working professionals both from academic and industry backgrounds.

The school has worked with top industry brands such as Siemens, Whirlpool, TVS, John Deere, Tata Steel, DRDO, etc. in areas encompassing system reliability, industrial safety, risk assessment, life testing, and reliability centered maintenance, product reliability assessment and many more.

Along with the organisation ASI Consulting Group, USA, Subir is actively engaged in the development of academic materials, laboratories, and faculty of the school. In a Web Workshop organised by the school in association with ASI Consulting Group International Quality experts Shin Taguchi (CTO, ASI), and Alan Wu (VP, ASI) shared insights on Robust Engineering and Optimization. Following Subir's goal to take the concept of quality to the common citizens of India and making it their personal need and responsibility, the faculty members at Subir Chowdhury School of Quality and Reliability are in the process of organizing web-based awareness programs. The school further aims to develop newer modules in Industry 4.0 and AIML.

Dr. Chowdhury has donated an amount of USD 750,000 to till date from his overall pledge of USD 1 Million for the School.

Ranbir and Chitra Gupta School of Infrastructure Design and Management (RCGSIDM)

The Ranbir and Chitra Gupta School of Infrastructure Design and Management (RCGSIDM) has been started by IIT Kharagpur in the year 2008. Mr. Ranbir Gupta, who is the founder and chairman of SIGMA7 design group, New York has made an endowment through Ranbir and Chitra Gupta Foundation to promote the initiative. It is the first of its kind in India wherein interdisciplinary technical and management skills are given due emphasis in order to foster the demands of the growing infrastructure sector in our country. The school opens its doors to students from various disciplines, including Architecture, Civil Engineering, Mechanical Engineering, and Electrical Engineering to enroll in the post graduate academic programs it offers.

Over the last seven years, RCGSIDM has produced four outstanding PhDs and over 150 M. Tech students. Three International Symposiums and numerous workshops have been steered to success by the steadfast efforts of its Faculty and students. The School boasts international collaborations with esteemed universities like Columbia University, Massachusetts Institute of Technology, Georgia Tech University, Lawrence Tech University, University of Tokyo, Tokyo Metropolitan University, Curtin University and so on. The School is currently linked with two mega projects funded by the Ministry of Human Resources Development, namely the “Future of Cities” and “SANDHI”.

The Ranbir and Chitra Gupta School of Infrastructure Design and Management helps IIT Kharagpur develop a SMART CAMPUS.

Two new laboratories- the Infrastructure Monitoring and Analytics Laboratory & the Infrastructure Evaluation Laboratory were inaugurated at the Ranbir and Chitra Gupta School of Infrastructure Design and Management, which would help in improving the operational management of infrastructure in towns and cities.

Mr. Ranbir (Ron) Gupta, an alumnus (1970 Batch, B. Arch), who seed-funded the school in 2008, was present

during the inauguration of the new labs and expressed his happiness about the new development in the school and the Department’s recent emphasis on industry experience through internships that has been made compulsory from last year for M. Tech students.

The Infrastructure Monitoring and Analytics lab, developed in association with Webel Technologies, would help in real-time monitoring of building, bridges, roads as well as air quality, temperature, humidity, and traffic. The lab is capable of collecting real-time data using various IoT devices such as video cameras, sensors and UAV. Some of these have already been set up at various points of the IIT Kharagpur campus. The data would be mapped and used for carrying out advanced analytics, modeling, simulation, etc. to formulate management policies. The effectiveness of various proposed solutions can also be evaluated based on the acquired data.

The newly opened state-of-the-art Infrastructure Evaluation Lab has equipment that would be used to carry out non-destructive testing in order to evaluate the in-situ condition of any structure or its components. Sophisticated equipment such as Impact-echo set-up, Ultrasonic Pulse Velocity test instrument, Acoustic Emission Test Set-up, MIT-Dowel Scan, portable ground-penetrating radar and other such equipment help assess the strength of existing buildings, bridges, roads, etc. The country is developing several concrete roads. The MIT-Dowel Scan, being set up for the first time by any lab in India, would be instrumental in evaluating these concrete roads including the dowel bars placed inside the pavement.

Aditya Choubey Centre for Re-Water Research

IIT Kharagpur on its 68th Foundation Day has taken up the challenge to resolve two burning issues of urban India – sewage disposal and access to clean potable water. The Institute has set up the Aditya Choubey Center for Re-Water Research, seed-funded by alumni Anant Choubey and Aneesh Reddy to "remediate, replenish and rejuvenate water resources". The on-campus plant is successful in converting 1.35 million liters of sewage water from hostel facilities into 1.2 million liters of potable water and that too on a daily basis.

Workshop

Kick-off workshop for onset of multi-Institute, multi-nation project Saraswati 2.0 titled "Identifying best available technologies for decentralized wastewater treatment and resource recovery for India", organized on 3-4 September 2019. The workshop saw a showcase of different technologies and a two days brainstorming session for enabling implementation of the same.

Deysarkar Centre of Excellence in Petroleum Engineering

IIT Kharagpur has set up the Deysarkar Centre of Excellence in Petroleum Engineering funded by distinguished alumnus Asoke Deysarkar and Ruma Acharya Deysarkar. The Centre which had received a seed funding of USD 1 million from the alumnus after whom it has been named, was inaugurated on October 24, 2016 at the Acharya Prafulla Chandra Roy Science Block. It is targeted towards Industry-Academia Synergy and innovation and training platform for future leaders in the energy sector.

The first batch of the dual-degree students from the Deysarkar Centre of Excellence in Petroleum Engineering has graduated with full placement in 2020. The centre has been able to provide the students with industrial internship experience at major oil and gas service companies (e.g. ONGC, OIL, Halliburton and Reliance) and, also at international acclaimed universities for Petroleum Engineering such as Texas A & M University, USA. To ensure the exposure of the state-of-the art technology and R & D to the students of the centre, Dr. Asoke Deysarkar continues to provide valuable support to the centre.

For the Fracturing Fluids Laboratory, a state-of-the-art automated flow-loop has been built to undertake research in hydraulic fracturing. For Drilling Technology Laboratory, research equipment has been procured such as Emulsion stability meter. At the Quantitative Fractured Reservoirs Lab (QFR), mid-to-hi-end workstations are loaded with geo-cellular modeling software Petrel and Stanford Geostatistical Modeling Software (SGeMS). New Reservoir Simulation Lab has been set up with high-performance workstations updated with state-of-the art industry software (e.g. Kappa Suite with modules of reservoir simulation, well testing, well logging, etc. and

MRST). Additionally, a new Reservoir Engineering Lab is being set up consisting of equipment such as Helium Porosimeter, Liquid Permeameter, Gas Permeameter and Resistivity Meter.

To provide industrial perspective to students, an adjunct faculty, with more than 30 years of operational and research experience from ONGC, has been inducted. To strengthen international collaboration, an international visiting faculty from University of Leoben (Austria) has been inducted in the petroleum centre. The centre was also visited by renowned experts from academia like Prof. Akhil Datta-Gupta (Texas A&M University, USA), Prof. Farrokh Mistree (University of Oklahoma, USA), Prof. Tapan Mukerji (Stanford University, USA), Prof. Jay Pulliam (Baylor University, TX, USA), Profs. Bruce Hobbs & Allison Ord (Univ. Western Australia) and Prof. Kundan Kumar (University of Bergen, Norway).Prof. Tapan Mujerji taught a 3-day short course at the Centre titled “Geo-statistics and Spatial Data Analytics for Reservoir Modeling” that was attended by researchers from ISI-Kolkata, ISM Dhanbad as well as ONGC (Image 3).

Faculties from the center have been engaged actively in pursuing industry collaborations with oil and gas service companies and operators. Dr. Sandeep D. Kulkarni (Associate Professor) has undertaken sponsored R & D projects with a major French oil and gas operator (TOTAL) as well as a service company in USA (PfP Industries). Dr. Aditya Vyas (Assistant Professor) has undertaken several sponsored R & D projects with a major Indian oil and gas operator, Oil India Ltd (OIL). Dr. Ankur Roy (Assistant Professor) has been working with another major Indian oil and gas operator, CEWELL-ONGC on securing funds for a project on scaling in carbonate reservoirs. CEWELL-ONGC invited Dr. Ankur Roy in February, 2020 for a keynote lecture in their 5th Annual Symposium in Mumbai. Faculties presented their research work in international and national conferences.

For the laboratory development work, industry collaboration and overall intellectual property contribution to the oil and gas industry, Dr. Sandeep D. Kulkarni of the centre was conferred with a prestigious international award (Distinguished Achievement Award for Petroleum Engineering Faculty for South Asia and Pacific region) by SPE in 2020.

M N Faruqui Innovations Centre

Summer is always busy time at the M N Faruqui Innovations Centre. Established in the campus in 2014, with a grand support from our distinguished alumnus Arjun Malhotra (1970/BTech/EC), who himself is a great innovator and an entrepreneur. The centre has been named after a legendary alumnus and former faculty of IIT Kharagpur, Late Professor Mohammad Naseem Faruqui.

The Innovations Centre comprises a Design Facility and Tinkering Laboratory. While the Design Facility is used for brainstorming and meetings, the Tinkering Lab has elaborate conferencing tools, 3D printers, a mechanical workshop with fabrication machinery, electronics workbenches, PCB fabrication set-ups, and prototyping tools for embedded systems, among others. The idea was to train the students in trans- disciplinary areas at early stages of engineering studies and promote the culture of innovation among a wide cross section of students and faculty with support from its alumni and the industry.

Latest Innovations by the Centre

UAV Fleet Challenge

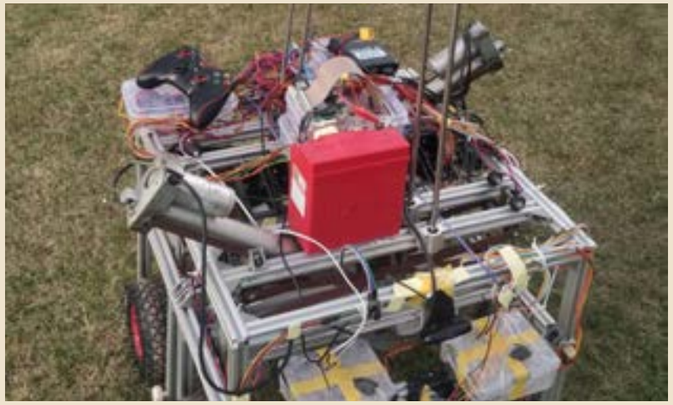

The task of this project was to spot a target amongst a clutter of different objects spread randomly over a grassy land and subsequently communicate the location of the target to their remaining two drones using swarm technology only. The application of this project proposed was in the Search and Rescue type of missions and the project also further extended to detect Human Mannequin [Army Fatigue], to make the project more useful in the general scenario. In this project, multiple small, lightweight, agile Unmanned Aerial Vehicles (UAVs) were used because even though these UAVs or multirotor platforms are able to incorporate many kinds of sensors that are suitable for detecting the objects of interest in cluttered outdoor areas, they have limited endurance and moderate computing power. These mini-UAVs working in groups using swarm coordination algorithms were used to perform tasks in a scalable, reliable, and robust manner. The complete strategy was designed to prevent any communication loss between the UAV's in the swarm, thus ensuring the uninterrupted transfer of information. The backbone of this solution is a robust search and detection algorithm as well as a simplistic hardware design, which optimizes cost, ensures proper sensor positions, and has additional safety features like shock-absorbing structure. The work has been undertaken by Aryan Jaiswal, Anvee Naik, Abhinav Ukey, Parakh Agarwal, Rishabh Singh, Shreyase Rangamani, Manthan Patel, Shrey Shrivastava, Pranav Shukla, Ayush Gupta.

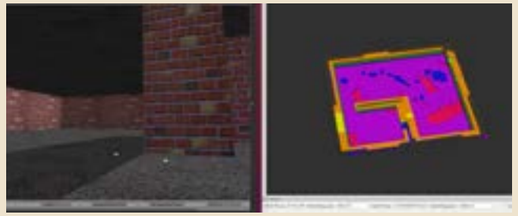

DIC's Terrace Farming Robot

The team of DIC Terrace Farming Robot who represented IIT Kharagpur at the 8th Inter IIT Tech Meet, bagged the Gold Medal by designing AAROHI, a robot that could autonomously perform navigation and climb down operations. The tinkering lab proved extremely useful for prototyping the scissor lift and other mechanisms for the robot in a limited time frame. While the manufacturing team worked on aluminium extrusions for building a lightweight Chassis, accurate localization was done using 1D Lidars, IMU and Camera mounted on the bot. The flow of information was implemented using a combination of a local microprocessor and a remote server. To handle any mechanical instabilities of the robot

several closed-loop control algorithms like pitch and yaw control were deployed for stable operation. Here concepts of Finite State Machine were used to solve the problem statement. The work was undertaken by Himanshu Raj Khandelwal, Yash Agarwal, Shivam Kumar Panda, Utkarsh Sharma, Adarsh Patnaik, C Siva Vignesh Krishnan, Jaydeep Godbole, Vibhakar Mohota, Gauri Wadhwa, and Abhay Shukla with mechanical engineering inputs from Dr. Aditya Bandopadhyay (ME). The team envisioned that such automation in the farming sector can enhance the quality of life in rural India and motivate the rural youth towards mechanization and automation.

ACR - Exploration

With the aim of reducing the involvement of humans in Risky Exploration operations such as mine mapping, industrial inspection, and disaster management, along with achieving the better efficiency as well as the precision by the use of Coordinated Robots, a project was developed in four parts.

- Single Agent Exploration
  The aim of this project was to explore an unstructured and unknown environment using a Single Exploration Agent. An important application of this was to navigate complex terrains which are of significant help especially to the first respondents.
- UGV UAV Tracking For Failure Recovery
  A 2nd Agent is introduced for tracking UAV, which is helpful for purpose of Failure Recovery. UGV does its independent exploration while staying close to the UAV such that if the UAV loses its localization, which is fairly common in the case of UAV because of loss of features, UGV tracks the UAV and helps it to re-localise.
- Time Bounded Exploration With Agent Recovery
  In practical Exploration, the time of operation of each agent is fixed and it is essential for them to return to their home position before their battery dies, thus there is a need for a time-based feasibility check at each node. In present approaches, the node is selected to maximize information gain, with that we add another constraint to check the feasibility of return to home time from that node.
- Multi-Agent Collaborated Exploration
  Here UGVs agents carry extra power that can be used to charge UAVs. It becomes an Operational Research linear Optimisation problem of given X Charging station and Y UAV exploration agents what is the maximum time of exploration that can be achieved, or given T time of exploration what is the value of X and Y.

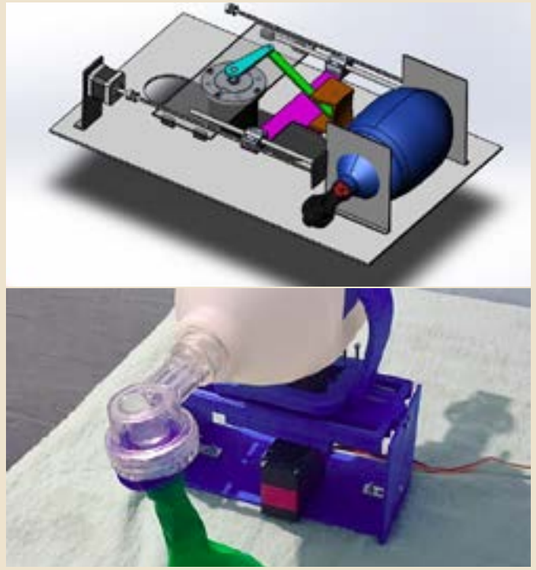

The work has been undertaken by Rishabh Singh, Manthan Patel, and Sombit Dey with Manthan undertaking his BTP under Dr. Aditya Bandopadhyay on this particular topic.

Social Distance Tracking Device

Implementing social distancing in a country as densely populated as India is a vital yet behemoth task for the administration. The citizens are requested to maintain proper social distance as it is the best offence against COVID-19 at this stage. MNFIC collaborated with IIT Kharagpur's Autonomous Ground Vehicle (AGV) research group and developed a low-cost AI-based cyber-physical system for monitoring social distance in public places. The students have developed a device which can visually detect the gap between individuals and play a proximity alert sound through audio output, for any violation of the social distancing norms. The device uses images in the field view of a camera and computes the distance as per criterion set by the Ministry of Health and Family Welfare, Government of India. The students have also created a startup (yantrakaar technologies). It has already been successfully tested with installations of three prototypes at the marketplace of the IIT Kharagpur campus. The work was undertaken by Rishabh Singh, Shreyansh Darshan, Anand Jhunjhunwala, Indukant, Apoorve Singhal, Yash Khandelwal, Harimohan Jha, Shrinivas Khiste, Nishant Goyal, Vinit Raj, Aryan Mehta, Karan Uppal, and Sakshi Dwivedi with inputs from Prof. Debashish Chakravarthy and Dr. Bandopadhyay.

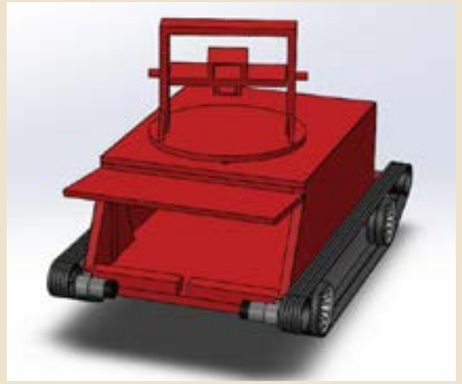

Breathing assist device

External ventilation support is required when a patient is unable to breathe to the required tidal volume. This may occur due to the inability or limited ability of lung muscles – diaphragm and ribs muscles. In a normal situation, these lung muscles create a negative pressure inside the lungs which pulls the air into the lungs. In ventilation support, we create a positive pressure outside to push air into the lungs. This process tries to replicate the motion of the hands of the emergency responders. The ongoing step is to integrate sensor input to control the breathing parameters which would act as breathing assist device for home patients. The work was initiated by Himanshu Raj Khandelwal, Shivam Kumar Panda, Farazul Haque, Rishabh Singh, Adarsh Patnaik, Jaydeep Godbole, Het Shah and Nirmalya Panigrahi and is being taken forward by Dr. Aditya Bandopadhyay and Hemant Chaudhary.

Hardware Modelling

Every year, an Inter-hall Hardware modelling competition is held as a part of the General Championship at IIT Kharagpur. The competition has an open problem statement, The MMM hall participated for the first time with the help of tools and machines from MNFIC's Lab. The ides they came up with was to build a robot with the potential to replace a human fire-fighter especially in extreme situations. It was nicknamed as SAFFV (Semi-Autonomous Fire Fighting Vehicle). SAFFV aimed to achieve the following functions,

Capable of all-terrain traversal with the help of skid steer drive consisting of caterpillar mechanism similar to tanks

Live thermal imaging and vision feed, which can be accessed with the help of Wifi.

Audio feed and audio communication and remote control through also2.4GHz Radio Frequency

Provision of continuous water supply of 10000 cc/min with the ability to increase it as per requirement. Secondary CO_2 based fire extinguisher (2kg) to extinguish small fires at a rapid rate.

A safety equipment box to aid the fire-fighters with tools and protection gear.

The work has been undertaken by Manthan Patel, Kalash Nibjiya, Mihir Gupta, Swarnim Raj, Pratyush Saha, Shubham Mishra, and Kartik Punjabi

Automated Aquaponics System

Aquaculture + Hydroponics = Aquaponics

Aquaponics is carried out in a greenhouse which ensures climate control, 90% less water than traditional farming, higher yield density due to the scope of vertical farming, and no pesticides. The system if at all is to be used within the Indian farmer community should be automated so that the maintenance and domain knowledge required to operate is minimal.

The benefits of the aquaponics system are:

- Increasing outreach of modern farming technology (requiring 90% less water).
- Producing organic, off-season and exotic crops with climate invariance, hence boosting the farmer's income.
- Highly scalable form of agriculture suitable for both indoor and outdoor farming ranging from urban households to large farmlands.
- Water is conserved, and the nutrients are reused. Water usage is extended, and discharge to the environment is reduced.
- Enables continuous and sustainable production.
- Hydroponic component serves as a bio-filter.

The system was initiated with 170 Tilapia fish. The system runs without any intervention, apart from picking of the vegetables and flowers. We plan to highlight this system to the farmers in the nearby villages for encouraging them to adopt such systems.

The students involved were: Himanshu Khandelwal, Ankush Roy, and Hemant Chaudhary with active participation of Dr. Aditya Bandopadhyay, who is keen to translate this into a startup wherein prefabricated containers can be made into standalone indoor farms.

Cabbage Harvesting Machine

The key idea is to design and develop a single row self-propelled walk behind type harvester. There are two vertical-axis sharp rotating discs in front the harvester. These blades cut the roots of cabbage. Behind this, there is a conveyor belt which his useful in moving the cabbage into a bucket. There are two pushing wheels, rotating in opposite directions, to push the cabbages on the conveyor belt after cutting. The operator guides the harvester and vacate the bucket when it would be full. The harvester has been fabricated. The work has been undertaken by Pranay Sarkar in consultation with Prof. Hifjur Raheman and Dr. Bandopadhyay

School Students taken on a tour of the Centre

As part of the outreach programmes, the centre organised an interactive session and product exhibition on 28th August, 2019, for the students of Lion Model chool, Jharagram. Also, on 1st October, 2019, about 150 students from Khamar Netaji Vidyapith High School, Jharagram, visited the centre as M N Faruqui Innovations Centre opened its gate to school children, showcasing a number of its innovations and technologies

P K Sinha Centre for Bioenergy and Renewables

Recognizing the importance of bioenergy as the future renewable energy source, India has created a multi-disciplinary bioenergy center in one of its premier technology schools with seed funding from an illustrious alumnus.

The P K Sinha Centre for Bioenergy and Renewables named after IIT Kharagpur alumnus Prabhakant Sinha, founder and Co-chairman of ZS Associates, was incepted in the year 2009. With a seed funding Rs. 10 crores from Sinha, the center seeks to provide cost-effective future energy solutions. PK Sinha Centre for Bioenergy is India's first integrated Bioenergy center, which is involved in activities such as knowledge in action by partnering with the government, commercial organizations, knowledge dissemination through academia, industry and policymakers. Experts at the Centre are currently working in the areas of Bioethanol, Biodiesel, Biohydrogen, Biomethane, Algal biorefinery, Microbial fuel cells, Genetic engineering of energy crops, etc.

The Centre organized the DBT National Workshop on Bioenergy (DNWB 2019) in Kolkata on October 17-18, 2019. Funded by the Department of Biotechnology, Government of India, this workshop aimed to bring together bioenergy scientists from around the country to promote a national conversation on and solve technological challenges towards achieving the national mission of deploying clean energy to fight climate change.

The Centre along with the School of Environmental Science and Engineering, also organized Indo-Belgium Workshop on Up scaling and field scale application of bioelectrochemical systems for wastewater treatment and bioenergy recovery (26 -27 February 2020).

Centre of Excellence in Advanced Manufacturing Technology

The DHI Centre of Excellence in Advanced Manufacturing Technology was set up at IIT Kharagpur in November 2017 by the Department of Heavy Industries (DHI) under the Ministry of Heavy Industries and Public Enterprises, Govt. of India, to strengthen the country's capital goods sector through a constant up gradation of manufacturing technology and technology transfer to industry, particularly to MSMEs. Since then, the Centre has initiated the setting up of an Industrial Research and Innovation Unit for MSMEs and an Innovation Lab that houses several state-of-the-art facilities critical to the R&D being undertaken at the Centre.

The centre offers a unique platform for collaborative, consortium driven infusion of advanced technologies in the manufacturing area, which is harmony with the 'Make-in-India' initiative of the Government of India. The centre would initiates innovative and top-quality research focused to the industries on **Specialty Materials, Design and Automation, Additive Manufacturing,** and **Digital Interventions as envisaged in Industry 4.0**.

The centre would boost innovative interventions in the advanced manufacturing domain by enabling an ecosystem among institutes of higher repute, heavy industries, and also the MSMEs and start-ups.

The Centre has state of the art physical infrastructure for additive manufacturing like 3D printing, advanced jointly facility e.g. robotic and micro friction stir welding, diagnostic and metrological inspection systems such as CT scan, Industrial IoT with lab facilities for sensors, backend analytics and research. All of these are targeted towards Industry 4.0, the next generation industrial evolution with intelligent machines, health monitoring and connected manufacturing through digital interventions, robotics and automation.

The Centre has state of the art physical infrastructure for additive manufacturing like 3D printing, advanced jointly facility e.g. robotic and micro friction stir welding, diagnostic and metrological inspection systems such as CT scan, Industrial IoT with lab facilities for sensors, backend analytics and research. All of these are targeted towards Industry 4.0, the next generation industrial evolution with intelligent machines, health monitoring and connected manufacturing through digital interventions, robotics and automation.

The Centre has come up with a low-cost based solution for product quality inspection. They have also developed an Industry 4.0 solution for real-time monitoring and control of weld quality, which has been filed as a patent, jointly with TCS. The Centre has also developed an ML based predictive maintenance software for complete diagnostics of the machine elements. This has been developed jointly with Tata Metaliks and Tata Sons.

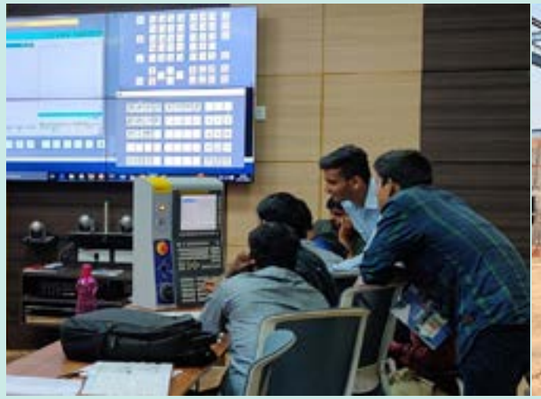

Various large, medium and small enterprises have shown interest to join the consortium of this CoE. Four Tata companies are associated with this consortium where IITKGP's faculty colleagues are closely working with them on Industry 4.0, automation and Additive manufacturing areas.

IIT Kharagpur eminent alumnus Prof Surjya K Pal, Chairperson of the Centre of Excellence in Advanced Manufacturing Technology and the Professor of Department of Mechanical Engineering delivered a lecture on "AI in Manufacturing" to NIT Sikkim, where he mentioned that manufacturing is having a huge potential for implementing AI techniques. He also mentioned about customised training programme on "AI in manufacturing", which they have been working on jointly with the Centre of Excellence in Artificial Intelligence of IIT Kharagpur.

CII organised MSMEs visits on April 10, 2019

Three Weekend Training Program on CNC (16-17 November, 23-24 November, 30 November- 1 December, 2019)

Five Day Training Program on CNC (February 17-21, 2020)

Saturday Manufacturing Talks started from March 13, 2021

The Centre is conducting a mega event titled "SATURDAY MANUFACTURING TALK" on every Saturday, at 08:30 pm IST. It is a yearlong series of webinars on topics of advanced manufacturing. In March 2021, the discussion took place on the topics include

-Robotics, Automation, and Use of AI and ML in manufacturing;

-Simulation in manufacturing;

-Specialty materials in manufacturing;

-Additive manufacturing;

-AI in supply chain and Design of experiments in engineering

Speakers were the alumni of IIT Kharagpur in academics and industry (India and abroad) – which helped in understanding the research being conducted globally on advanced manufacturing.

Click https://iitkharagpur.webex.com/iitkharagpur/j.php?MTID=m00ba321c9f62cf6aeb29a33edab1b210 to watch the webinars on every Saturday at 08: 30 PM IST.

Distinguished Alumnus Awardees

2020

RABINDRA MUKHOPADHYAY

[1975/MSc/CY & 1978/PhD/CY]

Director (R&D), JK Tyre and Industries Ltd.

Director and Chief Executive Officer, Hari Shankar Singhania Elastomer & Tyre Research Institute (HASETRI)

Chairman (Governing Council), Indian Rubber Institute

ACHINTYA KUMAR GHOSH

[1980/BTech/AG/PH]

Director (Ex-Officio Secretary to the Governing Board), KABIL

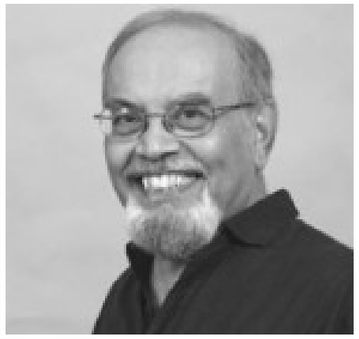

SARIPALLE SATYAMURTY

[1956/BTech/ME/NH]

Member Governing Body, Bhagavatula Charitable Trust

Member Governing Body, Rejuvenate India Movement

SUBIR KUMAR BANERJEE

[1959/MTech/GG/RP]

CSE Distinguished Professor Emeritus, Institute for Rock Magnetism, University of Minnesota

TRIBIKRAM KUNDU

[1979/BTech/ME/LLR]

Professor, University of Arizona

KALYAN CHAKRAVARTI

[1963/BTech/EE/RK]

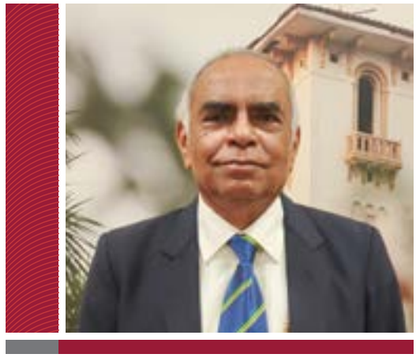

Managing Director, Kabirama Management Consultancy Private Limited

BHABESH CHANDRA SARKAR

[1978/BSc/GG/RK & 1980/MSc/GG/RK]

Professor, Indian Institute of Technology (Indian School of Mines) Dhanbad

DAMODAR ACHARYA

[1972/MTech/ME & 1976/PhD/IM]

Chairman Advisory Board, Shiksha 'O' Anusandhan University

Chairman, Board of Governors, IGIT Sarang Society

Former Director, Indian Institute of Technology Kharagpur

Former Chairman, All India Council of Technical Education (AICTE)

SHEKHAR CHAUDHURI

[1972/BTech/ME/NH]

Director, Calcutta Business School

Former Dean, Vinod Gupta School of Management, Indian Institute of Technology Kharagpur

Former Director, Indian Institute of Management Calcutta

SUSMITA SUR KOLAY

[1980/BTech/EC/SN/IG]

Professor, Indian Statistical Institute Kolkata

BOPPUDI NAGA RAMESH

[2011/PhD/BM/AM]

Indian Police Service, Director General of Police, Police Regulations and Manuals, West Bengal

RAJ KUMAR CAPRIHAN

[1967/BTech/EE/RK]

Advisor New Projects, TVS Credit Services Ltd.

RAJENDRA KUMAR BAGRODIA

[1966/BTech/CH/AZ]

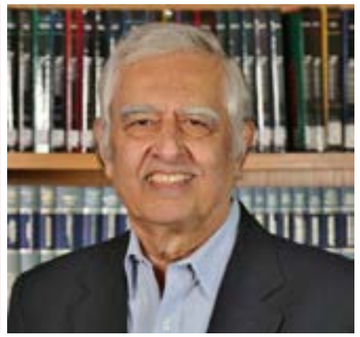

Chairman, Winsome Breweries Ltd.

HIRAK KUMAR SEN

[1963/MTech/CE/JCB]

Founder and Chief Executive Officer, H K Sens and Associates

LALIT RAI BAHL

[1964/BTech/EC/RK]

Senior Research Scientist, Renaissance Technologies

VINOD KUMAR JAIN

[1970/BTech/CH/NH]

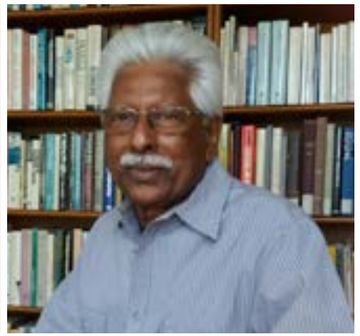

Founder and Chairman, Safechem Industries

RAMNATH S MANI

[1969/BTech/EC/PH]

Managing Director, Automation Excellence Private Limited

PATTI MUDDU GOPAL RAO

[1965/BArch/AR/RK]

Principal- Patti Rao Architect Planner

KRISHNAMURTHY SEKHAR

[1971/BTech/CH/LLB]

Formerly Vice Chancellor, Vels University

Formerly Chief Controller (R&D) (Missile Systems), Defence Research and Development Organization

NAWAL KISHORE CHOUDHARY

[1964/BTech/MI/NH]

Freelance Consultant, Business Strategy and Performance Improvement of an Organization

AMITAV RATH

[1967/BTech/ME/RK]

Chief Executive Officer, Policy Research International

AJOY KUMAR RAY

[1977/MTech/EC/VS]

Retired Visiting Professor, IIT Kharagpur

GANTI PRASADA RAO

[1965/MTech/EE/JCB & 1969/PhD/EE/BCR]

Owner, Inventive Pathways- Management Consultancy

Member, UNESCO-EOLSS Joint Committee

Former Professor, IIT Kharagpur

2019

BULBUL CHAKRABORTY

[1974/BSc/PH/SN]

Professor, Brandeis University

N P GUPTA

[1967/BTech/NA/RP]

AVSM,VSM (Retd.), Indian Navy

SOUMEN CHAKRABARTI

[1991/BTech/CS/RP]

Professor, IIT Bombay

ARJUN MENDA

[1958/MTech/ME/RK]

Founder & Group Chairman, RMZ Corp
Founder, Menda Foundation

PRABHAKAR SINGH

[1979/BTech/ME/PH]

Director General, Central Public Works Department, Ministry of Housing and Urban Affairs

RONOJOY DUTTA

[1972/BTech/ME]

Indian Aviation Executive

Chief Executive Officer, InterGlobe Aviation Limited

Water-colourist, Mentor, Coach and Business Consultant

SAYANTA BASU

[1988/BTech/EC/RK]

Founder and Chief Executive Officer, Agrud Technologies

D.Sc (Honoris Causa)

2021

VINOD GUPTA

(1967/BTech/AG/RK)

US- based Entrepreneur, Philanthropist and Former Ambassador

Also, Swami Atmapriyananda Maharaj, Monk of the Ramkrishna Order and Former Vice-Chancellor of Ramkrishna Mission Vivekananda Educational and Research Institute; Dr. & Prof. Randeep Guleria, Director of All India Institute of Medical Sciences (AIIMS), New Delhi and Dr. Elattuvalapil Sreedharan, Former Managing Director of Delhi Metro Rail Corporation (DMRC) popularly known as 'Metro Man' had been awarded Honorary Doctor of Science (Honoris Causa), by IIT Kharagpur.

Life Fellow

2021

RANBIR SINGH GUPTA

1970/BArch/AR/NH

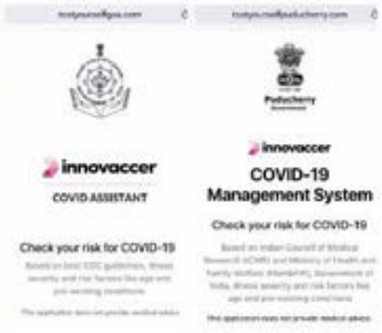

US-based Entrepreneur and Renowned Architect

The institute also conferred its Life Fellow Award on Professor Mahan Mj (Swami Vidyanathananda), Monk of Ramkrishna Order, Eminent Mathematician and Professor at the Tata Institute of Fundamental Research, Mumbai.

IIT Kharagpur ALUMNI came up with the unique ways to fight COVID-19

Four Start-ups co-founded by IIT Kharagpur alumni had developed technologies to offer assistance towards surveillance, mass-scale sanitization and automation of dissemination of official information related to novel coronavirus.

INNOVACCER, a data-driven healthcare technology start-up co-founded by Abhinav Shashank (2010/BTech/ME/RK) (YAAA 2018) and Kanav Hasija (2010/BTech/ME/MMM) from 2010 batch, has launched a self-assessment smartphone app, which can be used to identify patients who face a higher risk of being infected. Health authorities of Goa and Puducherry had tied up with Innovaccer to curb the spread of novel Coronavirus pandemic with the Automated Self-evaluation Assessment.

IIT Kharagpur alumnus Debayan Saha (2012/DD/ME/NH) has developed a device called AIRLNES MINUS CORONA to sanitize areas by spraying charged water droplets which are ionised using the viral discharge.

The device which looks like “Robo Sapien (human-like) operates by the mechanism of using charged water droplets which get ionised by using the corona discharge.

Another alumnus Souva Majumdar (2013/MTech/IM/JCB) has come up with an AI-based interactive platform called DENGUEBOT.IN which uses AI to answer the queries of people regarding the COVID-19 outbreak. It uses integrated information regarding the outbreak provided by WHO, Union Health Ministry, the Central government and the My Gov platform.

Another start-up called INTUGINE, co-founded by IIT Kharagpur alumni Harshit Shrivastava (2017/DD/MI/JCB) and Ayush Agarwal (2018/MSc/MA/RP), is utilising their flagship product ‘Mobile Number Location Tracking’ to monitor a large number of Home quarantined people and keep track of whether they are maintaining social distancing. The company also announced that this solution can enable effective crowd monitoring of quarantined cases in a least intrusive and scalable manner, on a single dashboard with a central control tower, reducing the pressure on the ground teams to visit each location and ensure adherence.

India’s moonshot Chandrayaan-2 launched by Indian Space Research Organisation (ISRO) from the spaceport at Sriharikota at Andhra Pradesh in the month of July of the year 2019. Three Kgpians were among the noted scientists who played a key role in the successful lauch of GSLV MkIII- M1/ Chandrayaan-2.

V. NARAYANAN

(1990/MTech/CR) & (2001/PhD/AE)

An expert in cryogenic rocket propulsion technology,was responsible for the manufacture of GSLV rocket’s cryogenic and liquid engines. He is the Outstanding Scientist and Director at the Liquid Propulsion System Centre (LPSC), ISRO, Thiruvananthapuram.

K. C. RAGHUNATHA PILLAI

(1986/MTech/CR)

On July 15, the initial scheduled Chandrayaan-2 mission was suddenly halted. After loading the cryogenic fuel into the rocket, the team of rocket specialists observed a technical issue. The rocket specialist, Pillai played a crucial rle in adverting this disaster. He is the Vehicle Director of Chandrayaan-2.

SHYAMAL KUMAR KANUNGO

(1970/MTech/CE/JCB)

As a senior member of the Control Team of Chandrayan-2 mission at Indian Space Research Organisation (ISRO), he played a significant role in the historic test-fire. He was also part of the Mars Orbiter Mission (MOM), also called Mangalayan, launched by ISRO on November 5, 2013.

Dhananjay Collur (1981/ BTech/EC/RK) (DSA 2017), who popularly known as DJ among his IIT KGP peer group, released his maiden album, 'UNREQUITED LOVE'. After being a corporate professional and entrepreneur for 35 years, he turned to his heart's call- MUSIC.

Book Released at the Event- Panel Discussion on "Live and Learn- The KGP Way", held by alumni

Title: Chronotantra

Author: Prithwis Mukherjee (1984/BTech/ME/AZ)

Featured Alumni

Madhumita Agarwal

(2012/LLB/IP/RLB)

The first woman, who co-founded OBEN EV, an Indian electric vehicle manufacturing company

Nibedita Datta

(2014/MTech/CH)

Won the Data-Science Hackathon, conducted by Icertis an enterprise software company in collaboration with Women in Data Science an organization based in Pune, to test women data scientists in revealing gender diversity in US Securities And Exchange Commission's online database dubbed Electronic Data Gathering Analysis and Retrieval System.

Jitendra Kumar

(2012/BTech/CE/RK)

Won a Filmfare OTT award in the category of Best Actor Comedy Series (Male) for his performance in the web series Panchayat.

Ranjita Bhagwan

(1998/BTech/CS/SN/IG)

The Recipient of the 2020 Association for Computing Machinery (ACM) India Outstanding contributions in Computing by a Woman (OCCW) Award

Featured Alumni

Rutvik Doshi

(1999/BTech/IM/RK)

Has been named Early Stage VC of the Year at the Apex 2020 PE - VC Summit & Awards by Venture Intelligence.

Ashish Tiwari

[2007/DD/CS/RP]

Has been conferred the Director General of Police (DGP), Uttar Pradesh (UP), Commendation Disc (Gold), 2020 and gfiles Awards 2019

Jayakanth Ravichandran

(2007/DD/MT/RP)

Has been conferred with the TMS Young Leaders Award from the Functional Materials Division of The Minerals, Metals and Materials Society.

Sundeep Mukherjee

(1998/BTech/MT/NH)

The recipient of the Hind Rattan Award, one of the highest Indian diasporic awards granted to non-resident Indians by the NRI Welfare Society of India

Featured Alumni

Ajit Behera

(2016/PhD/MT/BCR)

Has been conferred with the Yuva Rattan Award at the Pravasi Bharatiya Kendra, Ministry of External Affairs

Sujoy Kumar Guha

(1961/B.Tech/EE/RP & 1962/M.Tech/EE)

Has been conferred with the Padma Shri Award 2020

Ankur Jain

(2007/BTech/BT/RP)

Has been named among Packard Fellow for Science and Engineering

Sakya S. Sen

(2006/MSc/CY)

Has been conferred the Merck Young Scientist Award 2019 in Chemical Sciences.

Featured Alumni

R Mohan Mathur

(1960/BTech/EE)

Has been conferred the Order of Canada Award, the second highest honour for merit in Canada.

Monisha Ghosh

(1986/BTech/EC/SN/IG)

The first woman to be appointed to serve as the Federal Communications Commission's new Chief Technology Officer

Sneha Gautam

(2015/PhD/MI/JCB)

Has been conferred with the IEI Young Engineering Award 2019-20 by the Institution of Engineers (India)

Bipin Rajendran

(2000/BTech/IE/PH)

Has been named a Senior Member of the National Academy of Inventors (NAI).

Featured Alumni

PRAVEEN LINGA

(2002/MTech/CH)

Was Elected as the Fellow of the Royal Society of Chemistry

SUDIPTA SEAL

(1990/BTech/MT/RK)

Was elected as the Fellow of the Royal Society of Chemistry

Piya Pal

(2007/BTech/EC)

Received 2019 Young Investigators Award from the Office of Naval Research
Was also named to the group of 25 talented researchers for her work in "New Unified Framework for Super-Resolution Imaging with Prior Information"

Featured Alumni

Co-founded Gurugram-based Artificial Intelligence and deep learning solutions provider ParallelDots, which had won the India-SoftBank's Tech4Future Challenge in the area of AI/ ML based facial recognition with incubation opportunity in Japan.

Angam Parashar

(2012/DD/ME/MS)

Ankit Narayan Singh

(2011/BTech/ME/MS)

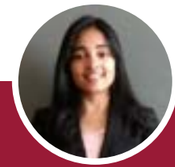

Bindu Sancheti

(2020/DD/CH/MT)

Sourav Kundu

(2020/DD/CH/RK)

Nikita Agarwal

(2020/DD/AG/SN/IG)

Rajat Maheswari

(2021/DD/CH/RK)

They developed a product Ecodabba, a sustainable food packaging solution that uses bagasse (sugarcane waste) to replace plastic food packaging. The technology won the India Australia Circular Economy (I-ACE) Hackathon for the theme "Creating Opportunities for Plastics Waste Reduction". Also, the start-up was among the top three at the Global Business Challenge 2020.

Featured Alumni

Sundar Pichai

(1993/BTech/MT/NH) (DAA 2015)

Named among the 100 most influential people of 2020 by Time Machine

Subhadeep Mondal

(2013/DD/BT/RK)

S L Sivareena

(2015/DD/ME/SN/IG) (YAAA 2021)

Co-founders of PregBuddy, India's first AI-enabled care continuum platform for the care of expecting mothers, have made it to Forbes Asia's list of 30 under 30 in the category of Healthcare and Science.

Featured Alumni

Kalyan Babu Kuramana

(2015/MSc/MA/HJB)

He was recognised by Forbes 30 under 30 Asia in the category of Social Entrepreneurs. He is the Co-Founder and CTO at TAI, building an innovative EdTech venture.

Pavan Guntupalli

(2012/BTech/EC/PH) (YAAA 2021)

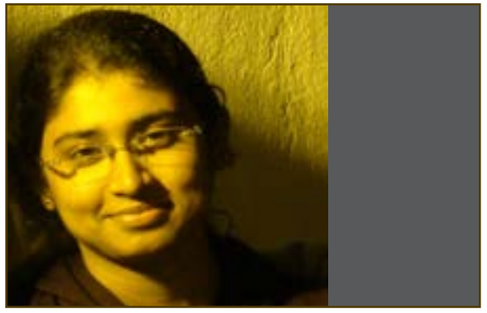

He has been listed in the Forbes 30 Under 30 Asia list of 2019 in the Consumer Technology and Big Money section. He is the Co-founder of Rapido, a Bike-Taxi mobile app platform to book bike rides for travelling solo.

Nishant Dalmia

(2014/BTech/CS/PH)

He made it to the Forbes 30 Under 30 Asia in the category of Big Money and Industry, Manufacturing and Energy for his enterprise, Cogoport, which he co-founded and which is a digital freight logistics venture.

Sumana Ghosh

(2019/PhD/CS/RLB)

Received DAAD Prime Fellowship

Featured Alumni

Romil Barthwal

(2012/MTech/IT)

He achieved the highest frontier of mountaineering- Mount Everest. He scaled the Himalayan heights along with his 14 members' team in summer, 2019.
List of expeditions done by him-
Mt Kedardome (6800m)
Mt Golep Kangri (5900m), summiteer & team leader
Hanging Peak, Siachen (5300m), summiteer and team leader
Mt Stok Kangri (6153m), summiteer and team leader
Mt Saruchi Lungpa (5400m), summiteer and team leader
Mt Lobuje, Nepal (6100m), summiteer and team leader
Mt Kun (7077m), summiteer and team leader
Mt Everest (8848m), summiteer and team leader
Unknown Peak in Mamostang Area (5900m), summiteer and team leader
Unknown Peak in Siachen (5400m), summiteer and team leader

Event

ALUMNI MEET

Alumni Meet is a flagship event of IIT Kharagpur, held every year. The institute had a grand celebration of the 17th Annual Alumni Meet for the batches of 1980 and1995. Almost 200 alumni with their family members from all over the world and all corners of the country participated in the meet to relive their old KGP days, revive old bonds, share their experiences, and pledge to contribute towards the growth of the institute by supporting and giving back to the institute. Many alumni walked away with raffle prizes and others with excitement that they met their old friends.

"KGP Ka Tempo High Hai"

IIT Kharagpur had the rare honour of hosting four former directors who flagged off the opening ceremony of the 17th Annual Alumni Meet of the Institute. Prof. K L Chopra, Prof. Amitabha Ghosh, Prof. Damodar Acharya and Prof. Partha Pratim Chakrabarti were special invitees of the incumbent Director of the institute, Prof. V K Tewari.

"Alumni-students interaction is a big, big thing"- Prof. Virendra Kumar Tewari, Director of IIT Kharagpur

Prof. Damodar Acharya, alumnus and former Director of IIT Kharagpur, participated in the brainstorming session with three other former directors to contemplate on the future of the institute. Prof. Acharya had decided to pay for the renovation of the two hostel rooms he occupied, first as an MTech student in 1970-72, and then during his PhD from 1972-75.

The 17th Annual Alumni Meet of 2020 saw a host of IIT Kharagpur's 'young' bunch, aged 18 years to almost 68 years gear up for their favourite sport- the 2.2 Marathon.

Student Alumni Meet (SAM):

Student Alumni Meet brings together the students and the alumni under one roof, encouraging interactive dialogues. This event plays a very important role in strengthening the bond with our alumni community. These meetings aim to connect the alumni and the students at a very personal level and ensure long-term interaction and strong bonding, thus proving to be extremely beneficial to both the students as well as the alumni. These meets are conducted at various locations around the globe. Students Alumni Meet '20 was conducted in Kolkata, West Bengal. Various alumni residing in Kolkata attended this meet. Also, many students from IIT Kharagpur visited this Meet to network with our alumni.

Alvida

“Goodbyes are only for those who love with their eyes because for those who love with their heart and soul, there is no such thing as separation.”

The atmosphere was pleasant with a tinge of sadness enshrined in it as the graduating batch of 2019 graced the occasion of Alvida, the annual farewell dinner, organized in the month of April. The evening started off on an amazing note as our Honourable Director and Honourable Dean addressed the students. This was followed by the eagerly awaited batch awards which the students thoroughly enjoyed. A lovely dinner flooded the Vikramshila complex with waves of nostalgia as everyone discussed the unending memories this campus gave them. There was no better way to end the night than dancing with ‘tempo’ and signing off with love.

AL VI DA

Golden Reunion 2020

The campus was reverberated with cheers, laughter and festive activities when close to 150 batchmates of 1970 Batch, together with their spouses, congregated from all over the world to celebrate their 50th graduation anniversary in a grand celebration titled "GOLDEN 2020 REUNION".

They reunited, relived their college experience and cherished their memories after 50 years of their graduating.

They came back to their alma mater also to inaugurate ADDA, their batch's gift to the campus on their golden anniversary. ADDA is an expansive area with a sculpted garden and varied seating arrangement.

"ADDA- which reads the same from left to right and right to left – means different things to different people, but it belongs to the entire IIT Kharagpur community"

Ron Gupta

Also, during this grand reunion, Shri Amit Khare, IAS, the then Secretary of MHRD, Government of India, inaugurated the Alumni Clock Tower, which was initiated by the Batch of 1967 and contributed by the alumni of 1970 Batch along with the other alumni of many different graduating batches, for setting up at the Tikka Circle. The Clock Tower had been designed by the renowned architect and alumnus of the institute, the late I M Asthana, for whom this tower was the last project.

“

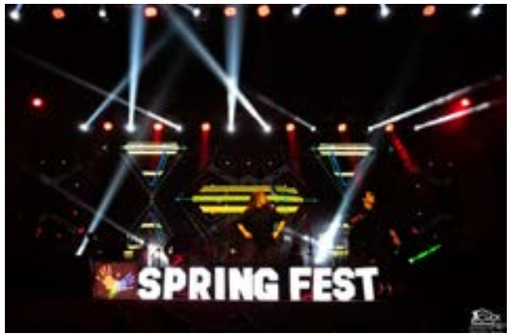

Both ADDA and Alumni Clock Tower would be places of interaction and exchange of ideas, which is what great institutions facilitate

”

Shri Amit Khare

The Grand Reunion was held simultaneously with the Spring Fest. The Batch was seen partaking Spring Fest’s unique fare of entertainment that included top performers like Divine and Ritviz, from the front circles among the audience.

Foundation Day

18th August marks a very important day in the calendar for Indian Institute of Technology Kharagpur. Foundation Day creates opportunity for the resurgence of the past, besides proposing a determined and dedicated futuristic approach amidst adversities. What a journey it was- every year it has triumphs and struggles. It was an adventurous journey.

The 70th Foundation Day of IIT Kharagpur was celebrated in the year 2020 virtually in the august presence of distinguished guests- Shri Ramesh Pokhriyal 'Nishank', the then Union Minister of Education (Chief Guest) and Shri Amit Khare, the then Higher Education Secretary (Guest of Honour).

With the completion of 68 years, since its inception in 1951, IIT Kharagpur hosted its 69th Foundation Day on 18th August, 2019. The 69th Foundation Day had Professor Subhasis Chaudhuri, a distinguished alumnus of IIT Kharagpur and the Director of IIT Bombay as the Chief Guest.

The day also saw close to 200 children of classes VIII-XII, participated in a quiz from six schools in and around Kharagpur.

2020

Dr. Shailendra Kumar Varshney

The G S Sanyal Award for Faculty Excellence (IIT Kharagpur Alumni Association, USA) was conferred upon Dr. Shailendra Kumar Varshney, Associate Professor at the Department of Electronics and Electrical Communication Engineering

Dr. Rajesh Kannan

The Excellent Young Teacher Award (IIT Kharagpur Alumni Association, India) was honoured to Dr. Rajesh Kannan, Assistant Professor at the Department of Mathematics

Dasari Giridhar Ram Chand

N Surya Prakash Reddy

The recipients of the Learn-Earn-Return Fellow Award are Dasari Giridhar Ram Chand (20CS10022) and N Surya Prakash Reddy (20CS10038). This scholarship is made possible by the generosity of gifts from most of our alumni.

2019

Dr. Anuradha Choudry

The Excellent Young Teacher Award (IIT Kharagpur Alumni Association, India) was honoured to Dr. Anuradha Choudry, Assistant Professor at the Department of Humanities and Social Sciences.

Jyoti Agarwal

Debajyoti Kar

Rathin Singha

The recipients of the Learn-Earn-Return Fellow Award are Rathin Singha (17CS10042), Jyoti Agarwal (17CS10016) and Debajyoti Kar (18CS10011). This scholarship is made possible by the generosity of gifts from most of our alumni.

Homecoming

Such a euphoric trip to nostalgia was experienced by the batches of 1999, 2004 and 2009 as they gathered to commemorate the 2nd Homecoming. The event saw more than 100 alumni of these batches together with close to 100 family members. Also, the event was combined with the ceremonial celebration of Foundation Day. The Homecoming that year led to the initiation of a campaign by the 1999 batch for a target of INR 50 lakhs.

Convocation

Convocation- the Ceremony Worth Everything, are days when students look forward to receiving their degrees, certificates of good performance, medals and all kinds of commensurations which are due to them. It is the capstone of their entire educational experience.

"Mantra of Self 3: Self-awareness, Self- confidence and Selflessness"
Shri Narendra Modi

Prime Minister Shri Narendra Modi addressed the 66th Convocation, held on 23rd February, 2021, as the Chief Guest through a video conference. The then Union Education Minister Shri Ramesh Pokhriyal 'Nishank' and Union Minister of State of Education Shri Sanjay Dhotre were present on the occasion as Guests of Honour. A total of 2815 students were awarded degrees at this convocation ceremony, out of whom 75 students received the Institute Gold and Silver medals.

The 65th Convocation was organised by the institute on August 27, 2019. Shri Ramesh Pokhriyal 'Nishank', the then Minister of Human Resource Development, Government of India had graced the occasion as the Chief Guest. Shri Sanjiv Goenka, Chairman and Board of Governors, IIT Kharagpur and Chairman of R P Sanjiv Goenka group was also present. That year, 2802 graduands received their degree.

Celebration of Swarnim Vijay Varsh

Celebrated of the 50th Anniversary of the 1971 Indo-Pak War: Swarnim Vijay Varsh happened on 9th March, 2021. The institute received the Swarnim Vijay Mashaal from Air Marshal IAF Station, Kalaikunda that morning which was handed over to a student representative for a brief run around the institute. Flight Lieutenant Aditya Dubey shared the visual stories on the bravery of Indian soldiers in the 1971 war and made a presentation on IAF Station Kalaikunda.

IIT Kharagpur has been an alma mater to many Bravehearts who have served or currently serving the Indian armed forces. The institute takes immense pride in its contribution towards safeguarding the motherland through its alumni as well as through the participation of its faculty members in the defense-related R&D.

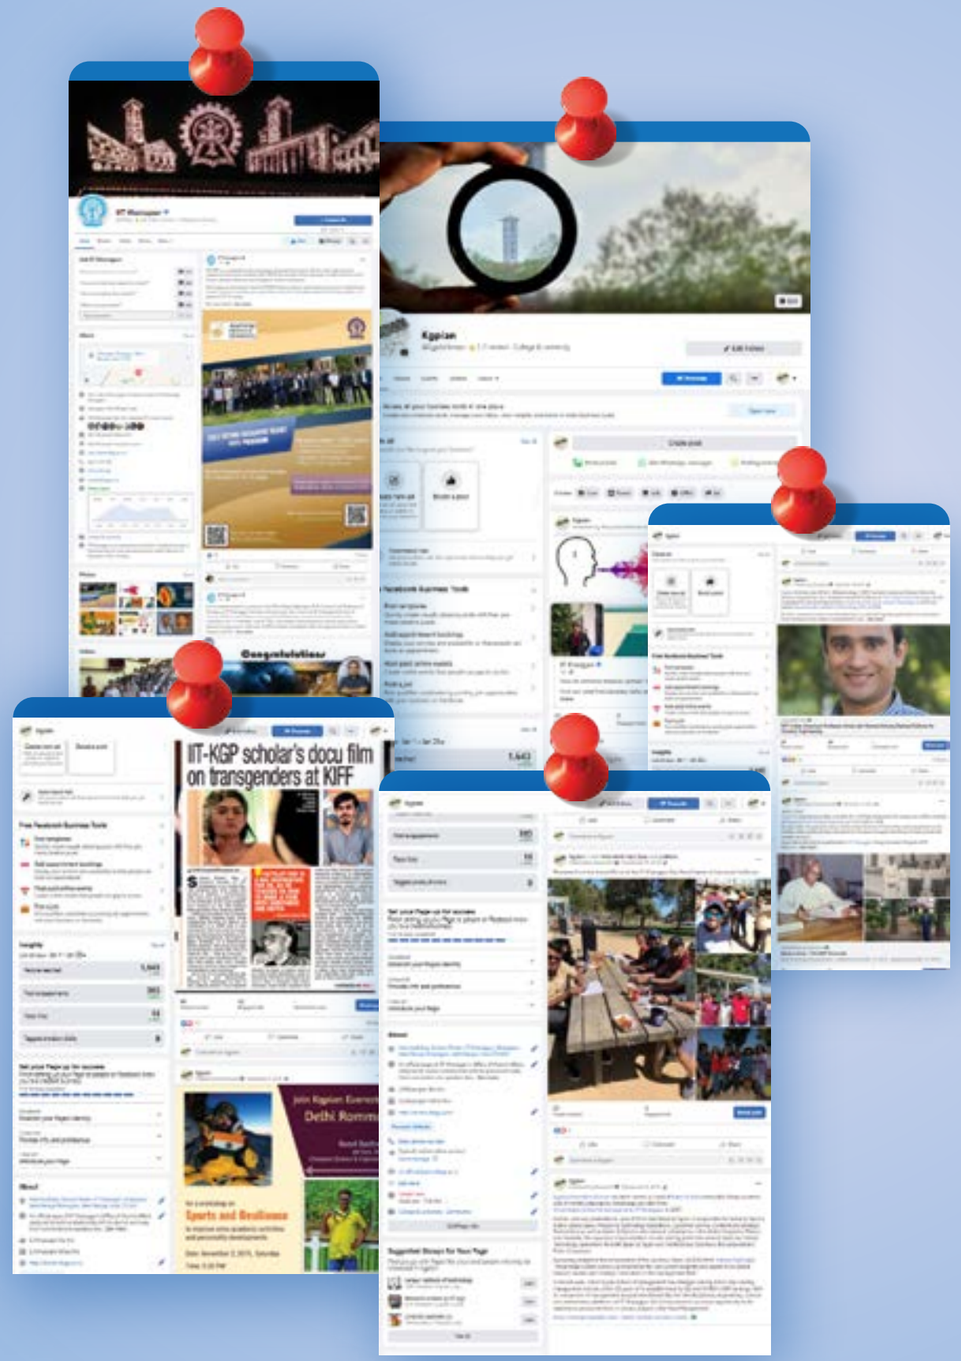

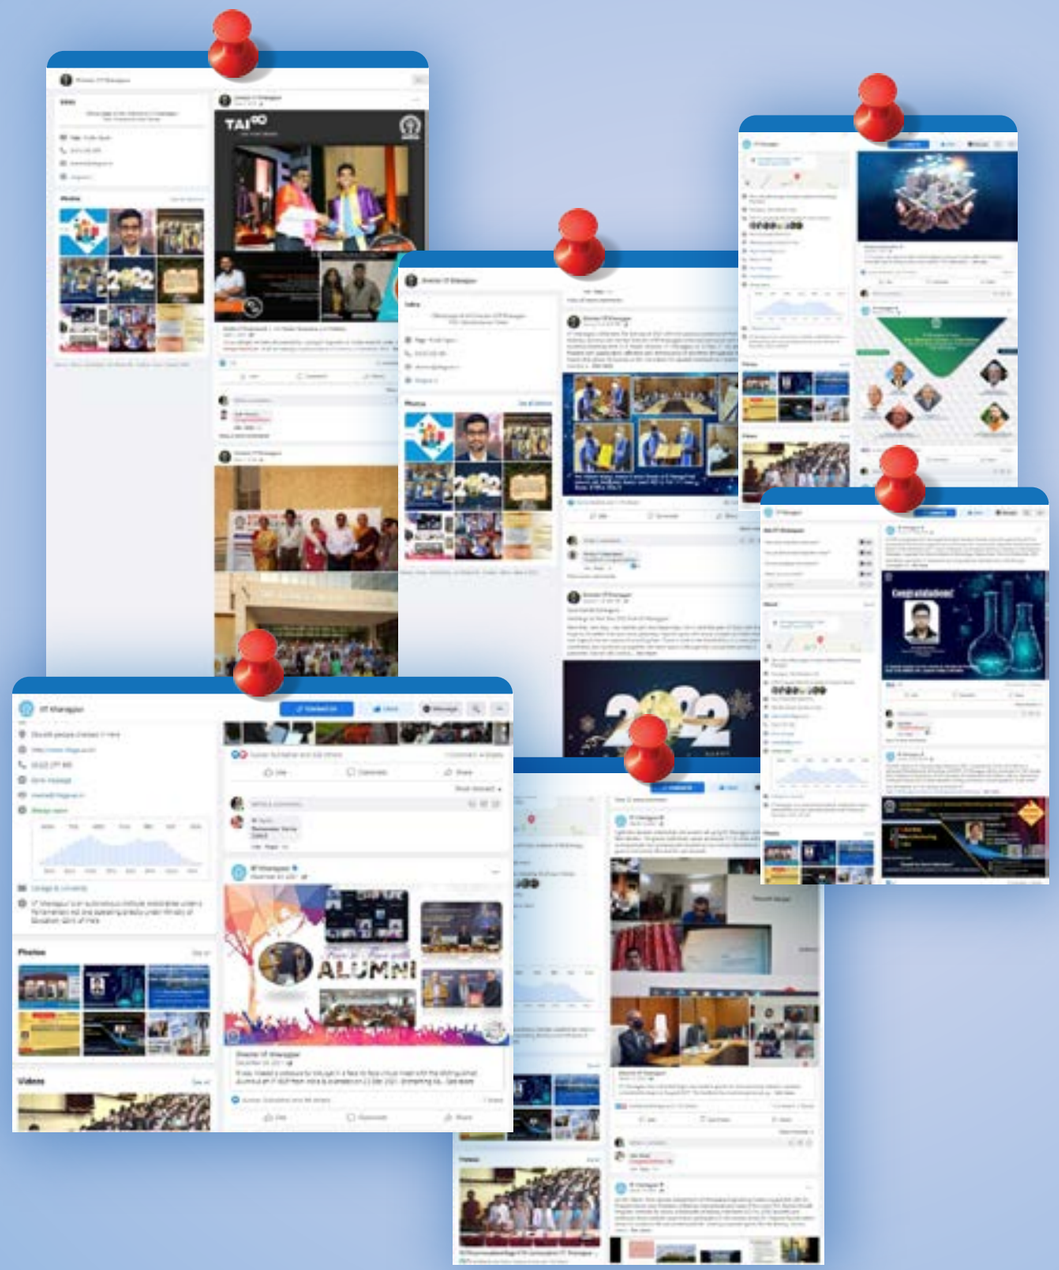

BRANDING

Sports and Resilience

ALUMNI

Activities:

Social Media Branding- The Alumni & Branding Office amplifies IIT's social media presence on multiple platforms including LinkedIn, Twitter and Facebook.

The KGP Chronicle- The Official News Platform of IIT, the KGP Chronicle publishes regular stories not only on research and innovation happening in the institute but also highlights activities, social events and lives of the campus residents.

Annual Alumni Report- The Annual Alumni Report consists of the annual activities of the Alumni office. It includes the annual accounts. The report also recognizes alumni donors and the achievements of the alumni. The report is complete with a photo gallery.

Posters for Campaigns and Events- The Office also hosts a dedicated team that creates promotional posters for diverse campaigns and events

Booklets- The Alumni office is involved in publishing booklets on events, activities, campaigns, and research updates. These booklets are published in print, e book and interactive formats.

Event Reporting- The office is responsible for compiling reports on webinars, seminars, academic and administrative events organized by the institute. It is also responsible for reporting on any event organized in collaboration with the ministries of the Government of India.

Media Outreach- The office is responsible for sharing information with the media on various events and happenings on campus and highlighting key achievements of the institute that include fundraising, ranking, awards, new academic and industrial collaboration etc.

International RELATIONS

The Office of International Relations was set up in the year 2003. Since 2014, the Office of International Relations, a wing of the Institutional Development Program (IDP) has grown significantly with the range of activities with regards to the signing of international MoUs and collaborations, outreach programs, facilitation of faculty and foreign students' visits etc. The Office has also been made responsible for the Institute's outreach and corporate social responsibility program. Following are the major activities (categorised under sections) undertaken during FY 2020-21 by the Office of International Relations:

International Collaborations and International MoUs/Joint Doctoral Programs

OIR has actively pursued IITKGP's strategy on 'internationalisation' that involves engendering collaborative activities with international partners on multiple levels and facilitating through various scopes of participation. One of the primary methods undertaken during this year by the Office of International Relations (OIR) included engendering the signing of MoUs and facilitating the other academic cooperation agreements with international institutions of repute. A brief on the signing of agreements/MoUs/DDDPs/JDPs undertaken are below:

i) IITKGP has signed the 'Student Exchange Agreement' with its existing partner institute of University of Wollongong, Australia. An MoU and Dual Doctoral Programme already exists with them.

ii) A multi-institutional Dual Doctoral Degree Program (DDDP) has been signed with the prestigious University of Manchester thereby signing its' first Joint Doctoral Program with a reputed university in the United Kingdom and Europe as a whole. The first cohort of 5 students was admitted in Autumn/Fall 2021 after an extremely competitive and rigorous selection process.

iii) The first batch of students was admitted under the Joint Doctoral Programme with University of Alberta (Canada). The agreement was signed back in 2019 but admission of students had to be postponed in view of the pandemic.

iv) Additionally, there were several international MoUs that have been renewed. The newly signed ones are with University of Wollongong, Curtin University, and University of Melbourne, all in Australia.

Facilitating various in house funding programs – SGRIP, ADSIP, GKFIP & IITKGP Doctoral scholarships

OIR has made special efforts to facilitate and provide support to administer several in-house funding programs/ scholarships such as the Shri Gopal Rajgarhia International Program (SGRIP), the Asoke Deysarkar International Program (ADSIP), IITKGP Doctoral scholarships and the Guru Krupa Foundation International Program (GKFIP) that are expected to have significant contribution towards transformation and elevation of the institute's world ranking.

SGRIP: The Shri Gopal Rajgarhia International Program (SGRIP) provides funding opportunities under various schemes. These schemes support visits of international academics and students to enhance international participation in research and fosters academic cooperation on campus. Unfortunately, we did not see many visits taking place under the SGRIP due to the pandemic. Nevertheless, funding support was still provided to several foreign students under this scheme.

ADSIP: The Asoke Deysarkar International Program (ADSIP) continues to be an attractive scheme for students from SAARC nations who desire to study at IIT Kharagpur for their Master's degree. The scheme was launched in 2019 and saw its first batch of 5 ADSIP scholars graduate in 2021. The scholarships for the new incoming batch (2021) have been finalized and offered to 5 students.

IITKGP Doctoral scholarship: This scholarship funded 04 new doctoral foreign students from Colombia, Russia, Ethiopia and Nepal who joined the institute during this year.

GKFIP: Guru Krupa Foundation International Program (GKFIP) is the latest inclusion to our institute's in-house funding programs this year. The scholarship program, funded by our illustrious alumnus Mr. Mukund Padmanabhan, supports both inbound and outbound students of IITKGP for the short term internships at the UG/PG/PhD level.

Multi-Institutional Dual Degree Programs:

IIT Kharagpur is offering joint programs with several international universities – Curtin, Wollongong and Melbourne in Australia; University of Auckland in New Zealand; and University of Alberta in Canada. The Institute most recently has signed The Joint Doctoral Degree Programme with the prestigious University of Manchester thereby signing the first JDP with an University in the United Kingdom and Europe. The institutions are promoting joint research projects and joint courses of study with two-way mobility of students who will get a joint or dual doctoral degree at the end of their dissertation work.

The Foreign Training Programme (FTP):

The Office of International Relations endeavors to serve the domestic students of IITKGP as much as it aspires to welcome international foot-fall. The Foreign Training Programme (FTP), is one such initiative which started in 2018 that provides a unique opportunity to undergraduate students from IIT Kharagpur to conduct research under the supervision of professors of eminent universities abroad. The FTP has been conducted remotely in 2020-21. It is noteworthy to mention here is that during this year we have received a total of 103 student and a total of 50 projects with participation from top universities like Stanford University, Brown University, University of Warwick and Queen Mary University. The projects were received from multiple numbers of international reputed universities from USA, France, Malaysia, Germany, Canada, England, Norway, Italy, UAE, Scotland, Australia, UK, Sweden, and South Korea.

Issuance of monthly IR Newsletters:

In view of providing information about research, academic opportunities and joint academic programs in India and abroad to the IITKGP students and teacher's community, the Office of International Relations prepares and disseminates a monthly IR newsletter. The monthly IR newsletters have been disseminated to the target audiences through the International Relations website and through other social media handles every month.

Digitalization of IR office:

The IR office has taken a new initiative and much required effort to digitalize its' office and has started this project. It is believed to increase the level of efficiency and convenience of record keeping and office database management at OIR.

International Students during FY 2019-2020:

Undergraduate Students (Inbound): 04

Graduate/Postgraduate Students (In-bound): 40

Self-Funded:

No. of Inbound Students: 05

Through ICCR/ Other Sources of Funding:

No. of Inbound Students: 39

International Students during FY 2020-2021:

Undergraduate Students (Inbound): 0

Graduate/Postgraduate Students (Inbound): 21

Self-Funded:

No. of Inbound Students: 01

Through ICCR/ Other Sources of Fund-ing:

No. of Inbound Students: 20

A Report from the General Secretaries (Outgoing)

Dear All,

It has been a tremendous journey of ups and downs and in them are the most memorable phases of our lives. We would like to express our sincere gratitude to Prof. Subrata Chattopadhyay, Dean of Alumni Affairs (previous), Prof. Baidurya Bhattacharya, Dean of International Relations(previous) and all the staff members of the Office of Alumni Affairs and International Relations (now, Office of Alumni Affairs and Branding), who work day and night to keep our organization growing. Following in the footsteps of the previous General Secretaries and Coordinators, we have worked tirelessly towards the goal to bridge the gap between our alumni and their Alma Mater.

We organized various activities in this academic year. We have had the honour of organizing Homecoming in August 2019, which is the reunion of the batches that graduated 10, 15, and 20 years ago. We held the Alumni Talks, the Student Alumni Mentorship Programme and the Alumni Career Assistance Programme. We also got the chance to organize the 17th Annual Alumni Meet in January 2020, which witnessed the presence of alumni from the batches of 1995 and 1980.

We are incredibly grateful to our alumni for their enthusiastic and active participation in our events. It is because of them that we could organize various successful events. We are now handing over the responsibility to the new team we think is best suited for the role. We wish all the very best to the entire new team for their tenure as Heads of this cell. Working for the Students' Alumni Cell and the Institute was a pleasure.

Best wishes and warm regards,

Akash Srivastava and **Subhadra Jena**

Message from the Incoming General Secretaries

Dear All,

We would like to thank our seniors for giving us this opportunity to hold onto the legacy of the Students' Alumni Cell, trusting and believing in us with the responsibility of being the General Secretaries for the session 2021-22.

Since joining this organization, we have learned something new every day, and we're so grateful for that experience. Although it is not always pleasant, the opportunity to grow feels limitless. Whether we're discovering unique aspects of our current position we weren't aware of or having conversations that could be uncomfortable, we walk away from each experience, glad that we approached it head-on. Indeed, we're not perfect, but we're still learning.

It has been 12 years since the Students' Alumni Cell was formed, and the organization has been growing even faster since then. It will continue to connect IIT KGP with its esteemed alumni community and continuously endeavor to strengthen the relations of the alumni and their alma mater.

Heartfelt thanks to the seniors who have welcomed us openly, invited us into their spaces, and shared their valuable lessons with us. We are looking forward to fulfilling our new positions under the continuing leadership of our seniors as advisors. This position is a fantastic opportunity for us, and we really cannot thank our seniors enough for their thoughtfulness and support.

We are sure that we can work well together and we know that the whole team is capable of a great deal. We are here to help each other reach our potential, so we rely on each other to prove us right!

With sincere gratitude and warm wishes,

Tarun Majety and **Vikas Ahlawat**
